General Employment Reports First Quarter Results

OAKBROOK TERRACE, IL - General Employment Enterprises, Inc. (AMEX: JOB) reported net income of \$296,000, or \$.06 per share, for the quarter ended December 31, 2006, compared with net income of \$128,000, or \$.02 per share, for the same quarter last year.

The Company's consolidated net revenues for the quarter were \$4,844,000, up 3% from \$4,713,000 last year. Contract service revenues of \$2,200,000 were down 17% from last year, while placement service revenues of \$2,644,000 increased 27%.

Commenting on the Company's performance, Herbert F. Imhoff, Jr., board chairman and CEO said, "The quarter's revenue mix showed continuing improvement in the demand for our placement services, while the use of contract services decreased. The higher placement service revenues were the result of a 10% increase in the number of placements and a 17% increase in the average placement fee. Contract service revenues decreased because of a 20% decline in the number of billable contract hours."

Mr. Imhoff added, "Because placement services have a higher profit margin than contract services, there was a marked improvement in profitability for the quarter. Income from operations was up 151%. That increase, together with higher investment income, resulted in a quarterly net income that was more than double the same period last year."

Business Information

General Employment provides professional staffing services through a network of 20 branch offices located in 10 states, and specializes in information technology, accounting and engineering placements.

The Company's business is highly dependent on national employment trends in general and on the demand for professional staff in particular. Because long-term contracts are not a significant part of the Company's business, future results cannot be reliably predicted by considering past trends or by extrapolating past results. Some of the factors that could affect the Company's future performance include, but are not limited to, general business conditions, the demand for the Company's services, competitive market pressures, the ability of the Company to attract and retain qualified personnel for regular full-time placement and contract assignments, the possibility of incurring liability for the Company's business activities, including the activities of contract employees and events affecting its contract employees on client premises, and the ability of the Company to attract and retain qualified corporate and branch management.
