SUMMARY TERM SHEET

This Summary Term Sheet and the section entitled “Questions and Answers About the Acquisition” summarize certain information contained in this Information Statement, but do not contain all of the information that is important to you. You should carefully read this entire Information Statement, including the attached Appendices.

ISSUANCE OF UP TO 640,000 SHARES OF SERIES A PREFERRED STOCK & ISSUANCE OF WARRANTS TO PURCHASE UP TO 6,400,000 SHARES OF OUR COMMON STOCK

On December 11, 2014, General Employment Enterprises, Inc. (the “Company”) entered into a Stock Exchange Agreement (the “SCRIBE Agreement”) with Brittany M. Dewan as Trustee of the Derek E. Dewan Irrevocable Living Trust II dated the 27th of July, 2010, Brittany M. Dewan, individually, Allison Dewan, individually, Mary Menze, individually, and Alex Stuckey, individually (collectively, the “Scribe Shareholders”). Pursuant to the terms of the SCRIBE Agreement the Company will acquire 100% of the outstanding stock of Scribe Solutions Inc., (“Scribe”) from the Scribe Shareholders for 640,000 shares of Series A Preferred Stock (the “Preferred Stock”) of the Company. In addition, the Company will exchange warrants to purchase up to 6,400,000 shares of the Company’s common stock, for \$0.20 per share, with a term of 5 years (the “Warrants”), for Scribe warrants held by three individuals. The issuances of Preferred Stock and Warrants by the Company shall be effected in reliance on the exemptions from registration afforded by Section 4(a)(2) of the Securities Act of 1933, (the “Securities Act”), and Rule 506 of Regulation D promulgated thereunder. The transactions set forth in the SCRIBE Agreement are based on a valuation of Scribe of not less than \$6,400,000.

The transaction has been unanimously approved by the written consent of the Board of Directors of the Company (the “Board”) and the holders of a majority of the Company’s outstanding common stock. The closing of the transactions set forth in the SCRIBE Agreement is subject to customary conditions to closing, and is expected to occur prior to March 31, 2015.

The Company’s Common Stock is listed and traded on the NYSE MKT under the symbol “JOB.” The Company must obtain the approval of the Company’s shareholders in accordance with Sections 705 and 712 of the NYSE MKT Company Guide in order for the NYSE MKT to approve the application to list the additional shares to be issued. Section 712 of the NYSE MKT Company Guide requires shareholder approval as a prerequisite to approval of applications to list additional shares to be issued when the present or potential issuance of Common Stock (or securities convertible into Common Stock) could result in an increase in outstanding common shares of 20% or more. The issuance of the Preferred Stock and of the Warrants in the transactions set forth in the SCRIBE Agreement could result in the issuance of Common Stock greater than 20% of the currently outstanding number of shares of Common Stock.

Under Illinois law, our Board has the authority to issue securities of the Company in such amounts and for such consideration as the Board may deem appropriate under Section 6.25 of the IBCA.

The foregoing transactions were approved by our Board at a special meeting on December 9, 2014, and by two shareholders that hold a majority of our issued and outstanding Common Stock by a written consent dated December 11, 2014.

This Information Statement is being mailed on or about February , 2015, to our shareholders of record on December 10, 2014. The actions described in this Information Statement will not become effective until the 21st day after the Information Statement is mailed to our shareholders. On or after such time, the actual share certificates covering 640,000 shares of Preferred Stock and the Warrants to purchase up to 6,400,000 shares of Common Stock will be issued to the Scribe Shareholders upon the satisfaction of certain requirements set forth in the SCRIBE Agreement.

QUESTIONS AND ANSWERS ABOUT THE ACQUISITION

Q: Why am I receiving this Information Statement?

A: The Company has agreed to acquire Scribe under the terms of the SCRIBE Agreement as described in this Information Statement. We are mailing this Information Statement to our holders of record as of the close of business on December 10, 2014. This Information Statement is being provided to you for your information to comply with the requirements of the Securities Exchange Act of 1934, as amended. You are urged to read this Information Statement carefully in its entirety. However, no action is required on your part in connection with this document. **We are not asking you for a proxy and you are requested not to send us a proxy.**

A copy of the agreement is attached to this information statement as Appendix B, which we encourage you to read.

Q: When and where is the stockholder meeting?

A: No shareholder meeting will be held in connection with this Information Statement.

Q: Why is the Company acquiring Scribe?

A: The Company is a staffing company that is publicly traded under the ticker symbol JOB, with approximately \$40 million in revenue. The staffing industry has more than \$100 billion in annual sales and is expected to grow at a rate higher than 10% per year. This outlook is only expected to improve with anticipated additional governmental regulation, such as the new health care requirements and as companies increase their use of staffing companies to augment their human resource requirements.

The staffing industry is highly competitive with few barriers to entry, other than access to working capital, as many of the companies strategically use their staffing companies to extend their own cash flow requirement for payroll. This has created a dynamic where more than 6,000 staffing firms in the United States have been open for more than one year. There are only a few staffing companies with more than \$100 million in revenue and the majority of staffing companies have less than \$5 million in annual revenue.

The Company is caught in the middle of the industry, not big enough to fully capitalize on economies of scale, however too big to not have a corporate reporting structure. The Company is also a public entity, which makes it subject to the reporting requirements of the Exchange Act of 1934 and increases its need for a corporate governance structure. Being a public company, however, also enables the Company to incentivize its employees with equity and align their focus with the Company's overall goals.

The Company is seeking significant growth in revenue and profitability over the course of the next two years through a series of acquisitions and internal expansion strategies. The Company seeks to acquire companies that (i) are cash flow positive and are accretive to the Company's net income, or that can be in less than 180 days from acquisition, (ii) provide additional services to sell through its current infrastructure, (iii) strategically align with the Company's culture, and (iv) provide or align with core technology, infrastructure and management.

The acquisition of Scribe meets all of these criteria. In addition, Scribe provides the Company entry into the medical staffing industry and significantly adds to its core executive management team.

Q: What will the owners of Scribe receive in the proposed transactions?

A: Pursuant to the terms of the SCRIBE Agreement the Company will acquire 100% of the outstanding stock of Scribe from the Scribe Shareholders for 640,000 shares of Series A Preferred Stock (the "Preferred Stock") of the Company. In addition, the Company will issue Company warrants in exchange for certain Scribe warrants.

Table of Contents

Q: What will be the total outstanding voting shares after the transaction?

A: If the proposed acquisition is completed, the following shares will be outstanding post transaction.

| Type of Stock | Shares | Converted to Common |
|---|------------|---------------------|
| Preferred Shares, Issued January 8, 2015 | 200,000 | 10,000,000 |
| Preferred Shares, Issued related to acquisition | 640,000 | 32,000,000 |
| Common Shares | 28,994,014 | 28,994,014 |
| Total | | 70,994,014 |

Q: Who will own the Company after the proposed acquisition?

A: If the proposed acquisition is completed, the current stockholders of the Company are expected to own approximately 55% of the outstanding shares of Common Stock of the Company. The current owners of Scribe are expected to own approximately 45% of the outstanding Common Stock of the Company. The foregoing presumes the conversion of all shares of the Preferred Stock.

Q: What is the record date?

A: The record date is December 10, 2014.

Q: Who will manage the Company post closing?

A: Following the acquisition, the Company will be overseen by its Board of Directors, which will replace one of its current board members with Derek Dewan. Mr Dewan will immediately also be elected Chairman of the Board. The current Chief Executive officer will remain with the Company as the Chief Financial Officer and Derek Dewan will be immediately elected as the Chief Executive Officer.

Q: When do you expect to complete the acquisition?

A: We are working to complete the acquisition as soon as possible. We expect to complete the acquisition prior to March 31, 2015. The closing of the acquisition is subject to the conditions and approvals described in this Information Statement and more specifically set forth in the SCRIBE Agreement.

Q: Why are we mailing this Information Statement to you?

A: This Information Statement is being provided to you for your information to comply with the requirements of the Securities Exchange Act of 1934, as amended. You are urged to read this Information Statement carefully in its entirety. However, no action is required on your part in connection with this document. No shareholder meeting will be held in connection with this Information Statement. We are not asking you for a proxy and you are requested not to send us a proxy.

DESCRIPTION OF THE BUSINESS OF SCRIBE SOLUTIONS, INC.

Scribe Solutions, Inc.

Scribe was incorporated in the State of Florida on December 30, 2008. Scribe Solutions was formed to meet the demands that physicians face with overcrowded waiting rooms, and to overcome the challenges presented by electronic medical records (EMR) and the rising cost of quality patient care. By providing physicians with personal assistants (medical scribes), Scribe offers turnkey programs where it recruits, qualifies, hires, and trains resources to serve as scribes at sites across the United States, and alleviates the burden of documentation and clerical duties. Scribe Solutions has developed a low cost staffing solution that improves productivity by providing scribe programs to emergency departments, physician practices, and outpatient and inpatient facilities. Scribe’s principal office is located at: 13500 Sutton Park Drive South, Suite 204, Jacksonville, FL 32224.

Services Provided

Emergency departments (ED) are fast paced environments in which ED physicians take multi-tasking to the extreme, and they often find themselves performing data entry and clerical duties. As the emergency room physician takes more and more time to document in the electronic medical record (EMR) he or she spends less time caring for patients. In fact, ED physicians now spend 45 minutes of every hour documenting or performing clerical duties. This results in decreased productivity, decreased patient satisfaction, decreased relative value units (RVUs), decreased turnaround times (TAT) and poor patient care.

Scribe offers emergency department medical scribes to allow the ER physician to spend less time on clerical duties and more time caring for patients. Scribe’s clinical information managers (scribes) provide specific emergency department services to aid doctors in documentation and minimize their clerical duties. Not only does Scribe offer physician assistant (medical scribe) services to emergency departments, but also to busy specialty physician practices and clinics. Physicians in these specialty practices and clinics benefit from scribe services by spending less time on charting and more time on providing quality patient care.

In addition, Scribe provides an online and live didactic series designed to develop quality scribes. Scribe’s medical scribes have an excellent knowledge base and can adapt to any documentation system. The scribes also perform other emergency department services such as tracking labs, transcribing radiology reports, attending to patient needs, and helping physicians organize data.

The transaction will allow the Company to enhance its traditional staffing products with other non-traditional offerings as outlined above for which the Company can now offer a complete suite of products and services for corporate clients and staffing companies alike.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OF SCRIBE SOLUTIONS, INC.

Overview

Scribe was incorporated in the State of Florida on December 30, 2008. Scribe Solutions was formed to meet the demands that physicians face with overcrowded waiting rooms, and to overcome the challenges presented by electronic medical records (EMR) and the rising cost of quality patient care. By providing physicians with personal assistants (medical scribes), Scribe offers turnkey programs where it recruits, qualifies, hires, and trains resources to serve as scribes at sites across the United States, and alleviates the burden of documentation and clerical duties. Scribe Solutions has developed a low cost staffing solution that improves productivity by providing scribe programs to emergency departments, physician practices, and outpatient and inpatient facilities. Scribe's principal office is located at: 13500 Sutton Park Drive South, Suite 204, Jacksonville, FL 32224.

Results of Operations

Net Revenues

Consolidated net revenues increased by approximately \$525,000 or 16% compared with the same period last year. The revenue increased based on the growth of transcription and other services derived from increased resources for multiple scribe shifts provided to existing hospital customers for their emergency rooms plus select additions of scribes to physician practices and the addition of several new customers including clinical medical groups and other health care institutions.

Cost of Contract Services

Cost of services includes wages, payroll taxes and other expenses directly paid to the employees for services provided under contract assignments. Cost of contract services for the year ended, increased by approximately 5% to approximately \$2,100,000 compared with the prior year of approximately \$2,000,000. Cost of contract services, as a percentage of contract revenue, for the year ended, decreased by 5.5% to 55.6% compared to 61.1% in the prior year. The increase in cost of services and decrease as a percentage of contract revenue was due primarily from increased volume and billable hours from scribes on assignment, better efficiencies, cost control and economies of scale.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the year ended, increased by approximately \$610,000 or 65% to approximately \$1,550,000 as compared to the prior year of approximately \$940,000. The most significant increase was related to a lump sum settlement of a contract within which provided for commissions payable to a group on billed and collected scribe services at certain hospital locations in the amount of approximately \$570,000, however going forward the Company expects this to not be a continuing expense in fiscal year 2015 as the contract was terminated in conjunction with the lump sum buyout payment. In addition increased management salaries and wages contributed to the increased selling, general and administrative expenses for fiscal year 2014 versus the comparable prior fiscal year.

Table of Contents

Taxes

Scribe, with the consent of its original stockholder, elected to be an S corporation for both federal and state tax purposes. Accordingly, no provision for federal income taxes has been presented in the financial statements as such taxes are to be paid by the stockholders individually.

Liquidity and Capital Resources

As of yearend September 30, 2014, Scribe had cash and cash equivalents of approximately \$284,000, which was an increase of approximately \$54,000 from approximately \$230,000 the prior year. Working capital at year end was approximately \$426,000 as compared to \$582,000 for the prior period. The decrease of approximately \$156,000 was primarily due to a newly obtained loan, which was necessary for the lump sum settlement payment made in fiscal 2014 related to a specific commission contract with a group for payments due on billed and collected scribe services and as more fully described above with such contract and related obligations thereunder terminated in fiscal year 2014.

Net cash provided by (used in) operating activities for the yearend was approximately \$(18,000) as compared to \$228,000 in the prior year.

Net cash flow provided in financing activities for the yearend was approximately \$74,000 as compared to no financing activities in the prior year.

The Company has a note payable with a local bank that was used to refinance a line of credit that was outstanding during the year. The note calls for interest at the prime rate as listed in the Wall Street Journal plus 0.75%, currently at 4.0% at December 31, 2014. The note is due upon demand or if no demand is made the note matures on March 14, 2015.

Management believes with current cash flow from operations, the preferred offering and the availability under the ACF facility, the Company will have sufficient liquidity for the next 12 months.

GENERAL EMPLOYMENT ENTERPRISES, INC.
NOTES TO UNAUDITED PRO FORMA COMBINED FINANCIAL INFORMATION

1. BASIS OF PRO FORMA PRESENTATION

The unaudited pro forma combined balance sheet as of September 30, 2014, and the unaudited pro forma statements of operations for the years ended September 30, 2014 and September 30, 2013, are based on the historical financial statements of General Employment Enterprises, Inc. (the "Company") and Scribe Solutions Inc., ("Scribe") after giving effect to the Company's acquisition of Scribe, and reclassification and adjustments described in the accompanying notes to the unaudited pro forma combined financial information.

The Company accounts for business combinations pursuant to Accounting Standards Codification ASC 805, *Business Combinations*. In accordance with ASC 805, the Company uses its best estimates and assumptions to accurately assign fair value to the assets acquired and the liabilities assumed at the acquisition date. Goodwill as of the acquisition date is measured as the excess of the purchase consideration over the fair value of the assets acquired and the liabilities assumed.

The fair values assigned to Scribe's assets acquired and liabilities assumed are based on management's estimates and assumptions. The estimated fair values of these assets acquired and liabilities assumed are considered preliminary and are based on the information that was available as of the date of acquisition. The Company believes that the information provides a reasonable basis for estimating the fair values of assets acquired and liabilities assumed, but is waiting for additional information, primarily related to estimated values of current and non-current income taxes payable and deferred taxes, which are subject to change, pending the finalization of certain tax returns. The Company expects to finalize the valuation of the assets and liabilities as soon as practicable, but not later than one year from the acquisition date.

The unaudited pro forma combined financial information is not intended to represent or be indicative of the Company's consolidated results of operations or financial position that the Company would have reported had the Scribe acquisition been completed as of the dates presented, and should not be taken as a representation of the Company's future consolidated results of operation or financial position.

The unaudited pro forma combined financial information should be read in conjunction with the historical consolidated financial statements and accompanying notes of the Company included in the annual report on Form 10-K for the year ended September 30, 2014.

Accounting Periods Presented

RISK FACTORS

You should carefully consider the risk factors described below, together with the other information contained in this information statement. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the market or trading price of our securities could decline and you could lose all or part of your investment. This proxy statement also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of specific factors, including the risks described below.

Risks Related to the Business of General Employment Enterprises, Inc.

WE HAVE EXPERIENCED LOSSES FROM OPERATIONS AND MAY NOT BE PROFITABLE IN THE FUTURE.

The Company experienced losses for the years ended September 30, 2014 and September 30, 2013. There can be no assurance that the Company will not incur losses in the future. Although the operating expenses have decreased, there are no assurances that the Company will be able to generate sufficient revenue to meet its operating expenditures or operate profitably in the future.

RECENT GLOBAL TRENDS IN THE FINANCIAL MARKETS COULD ADVERSELY AFFECT OUR BUSINESS, LIQUIDITY AND FINANCIAL RESULTS.

Recent global economic conditions, including disruption of financial markets, could adversely affect our business and results of operations, primarily through limiting our access to credit, our ability to refinance debt and disrupting our customers' businesses, which are heavily dependent on retail and e-commerce transactions. Although we currently believe that we will be able to obtain the necessary financing in the future, there is no assurance that these institutions will be able to loan us the necessary capital, which could have a material adverse impact on our business. In addition, continuation or worsening of general market conditions in the United States economy important to our businesses may adversely affect our customers' level of spending, ability to obtain financing for purchases and ability to make timely payments to us for our services, which could require us to increase our allowance for doubtful accounts, negatively impact our days sales outstanding and adversely affect our results of operations.

WE DEPEND ON ATTRACTING, INTEGRATING, MANAGING, AND RETAINING QUALIFIED PERSONNEL.

Our success depends upon our ability to attract, integrate, manage and retain personnel who possess the skills and experience necessary to fulfill our clients' needs. Our ability to hire and retain qualified personnel could be impaired by any diminution of our reputation, decrease in compensation levels relative to our competitors or modifications to our total compensation philosophy or competitor hiring programs. If we cannot attract, hire and retain qualified personnel, our business, financial condition and results of operations may suffer. Our future success also depends upon our ability to manage the performance of our personnel. Failure to successfully manage the performance of our personnel could affect our profitability by causing operating inefficiencies that could increase operating expenses and reduce operating income.

WE MAY NOT BE ABLE TO COMPETE EFFECTIVELY.

Competition in the market for placement and staffing services is intense. The Company faces competition from many larger, more established companies. In addition, other companies could seek to introduce competing services and increased competition could result in a decrease in the price charged by the Company's competitors for their services or reduce demand for the Company's products and services, which would have a material adverse effect on the Company's business, operating results and financial condition. There can be no assurance that the Company will be able to compete successfully with its existing or potential competitors, which may have substantially greater financial, technical, and marketing resources, longer operating histories, greater name recognition or more established relationships in the industry than the Company. If any of these competitors provides competitive services to the marketplace in the future, the Company cannot be sure that it will have the resources or expertise to compete successfully.

CHANGES IN GOVERNMENT REGULATION COULD LIMIT OUR GROWTH OR RESULT IN ADDITIONAL COSTS OF DOING BUSINESS.

We are subject to the same federal, state and local laws as other companies conducting placement and staffing services, which is extensive. The adoption or modification of laws related to the placement and staffing industry, such as the Healthcare for America Plan, could harm our business, operating results and financial condition by increasing our costs and administrative burdens.

[Table of Contents](#)

INTERRUPTION OF THE COMPANY'S BUSINESS COULD RESULT FROM INCREASED SECURITY MEASURES IN RESPONSE TO TERRORISM.

The continued threat of terrorism within the United States and the ongoing military action and heightened security measures in response to such threat has and may cause significant disruption to commerce. The U.S. economy in general is being adversely affected by terrorist activities and potential activities. Any economic downturn could adversely impact the Company's results of operations, impair the Company's ability to raise capital or otherwise adversely affect the Company's ability to grow the business. It is impossible to predict how this may affect the Company's business or the economy in the U.S. and in the world. In the event of further threats or acts of terrorism, the Company's business and operations may be severely and adversely affected or destroyed.

SUBSTANTIAL ALTERATION OF THE COMPANY'S CURRENT BUSINESS AND REVENUE MODEL COULD HURT SHORT-TERM RESULTS.

The Company's present business and revenue model represents the current view of the optimal business and revenue structure, which is to derive revenues and achieve profitability in the shortest period. There can be no assurance that current models will not be altered significantly or replaced with an alternative model that is driven by motivations other than near-term revenues and/or profitability (for example, building market share before the Company's competitors). Any such alteration or replacement of the business and revenue model may ultimately result in the deferring of certain revenues in favor of potentially establishing larger market share. The Company cannot assure that any adjustment or change in the business and revenue model will prove to be successful.

THE REQUIREMENTS OF BEING A PUBLIC COMPANY MAY STRAIN OUR RESOURCES AND DISTRACT MANAGEMENT.

As a public company, we are subject to the reporting requirements of the Exchange Act and the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"). These requirements are extensive. The Exchange Act requires that we file annual, quarterly and current reports with respect to our business and financial condition. The Sarbanes-Oxley Act requires that we maintain effective disclosure controls and procedures and internal controls over financial reporting.

We may incur significant costs associated with our public company reporting requirements and costs associated with applicable corporate governance requirements. We expect all of these applicable rules and regulations to significantly increase our legal and financial compliance costs and to make some activities more time consuming and costly. This may divert management's attention from other business concerns, which could have a material adverse effect on our business, financial condition and results of operations. We also expect that these applicable rules and regulations may make it more difficult and more expensive for us to obtain director and officer liability insurance and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. As a result, it may be more difficult for us to attract and retain qualified individuals to serve on our Board of Directors or as executive officers. We are currently evaluating and monitoring developments with respect to these rules, and we cannot predict or estimate the amount of additional costs we may incur or the timing of such costs.

FAILURE TO ACHIEVE AND MAINTAIN EFFECTIVE INTERNAL CONTROLS IN ACCORDANCE WITH SECTION 404 OF THE SARBANES-OXLEY ACT COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS AND OPERATING RESULTS. IN ADDITION, CURRENT AND POTENTIAL STOCKHOLDERS COULD LOSE CONFIDENCE IN OUR FINANCIAL REPORTING, WHICH COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR STOCK PRICE.

Effective internal controls are necessary for us to provide reliable financial reports and effectively prevent fraud. If we cannot provide reliable financial reports or prevent fraud, our operating results could be harmed. We are required to document and test our internal control procedures in order to satisfy the requirements of Section 404 of the Sarbanes-Oxley Act, which requires annual management assessments of the effectiveness of our internal controls over financial reporting. During the course of our testing, we may identify deficiencies which we may not be able to remediate in time for compliance with the requirements of Section 404. In addition, if we fail to maintain the adequacy of our internal controls, as such standards are modified, supplemented or amended from time to time; we may not be able to ensure that we can conclude on an ongoing basis that we have effective internal controls over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act. Failure to achieve and maintain an effective internal control environment could also cause investors to lose confidence in our reported financial information, which could have a material adverse effect on our stock price.

Table of Contents

We cannot provide assurance as to the result of these efforts. We cannot be certain that any measures we take will ensure that we implement and maintain adequate internal controls in the future. Any failure to implement required new or improved controls, or difficulties encountered in their implementation, could harm our operating results or cause us to fail to meet our reporting obligations.

WE HAVE NOT REGISTERED WITH THE SEC OR LISTED WITH THE NYSE MKT THE SHARES UNDERLYING OPTIONS ISSUED UNDER OUR INCENTIVE PLANS.

We have issued options to purchase approximately 3.3 million shares of our common stock under the 2011 and 2013 Incentive Plans, some of which are fully vested and exercisable. We have not yet filed a registration statement on Form S-8 registering the shares underlying such options, nor have we listed such shares with the NYSE MKT. If we do not register these shares, the Company may be subject to civil or other penalties (including sanctions) by regulatory authorities and/or shareholders for certain violations of federal or state securities laws. We may also be subject to the suspension of trading in, or removal from listing from, the NYSE MKT for failure to comply with the NYSE MKT listing agreement.

VOLATILITY OF THE MARKET PRICE OF THE COMPANY'S STOCK IS LIKELY TO OCCUR DUE TO THE LOW TRADING VOLUME OF OUR STOCK.

The market price of the Company's common stock may be volatile, which could cause the value of your investment to decline. Any of the following factors could affect the market price of our common stock:

- Changes in earnings estimates and outlook by financial analysts;
- Our failure to meet investors' performance expectations;
- General market and economic conditions; and
- Our small trading volume.

THE MARKET FOR PENNY STOCKS HAS SUFFERED FROM PATTERNS OF FRAUD AND ABUSE.

According to the SEC, the market for penny stocks is subject to patterns of fraud and abuse including, but not limited to the following:

- Control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer;
- Manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases;
- "Boiler room" practices involving high-pressure sales tactics and unrealistic price projections by inexperienced sales persons;
- Excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and
- The wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the inevitable collapse of those prices with consequent investor losses.

In addition, many of the risks described elsewhere in this “Risk Factors” section could adversely affect the Company’s stock price. The stock markets have experienced price and volume volatility that have affected many companies’ stock prices. Stock prices for many companies have experienced wide fluctuations that have often been unrelated to the operating performance of those companies. These types of fluctuations may affect the market price of our common stock.

APPLICABILITY OF THE RISK DISCLOSURE REQUIREMENTS ON LOW PRICED STOCK COULD DISCOURAGE BROKERS FROM MAKING A MARKET IN OUR STOCK.

The Company’s common stock may be considered a low priced security under rules promulgated under the Exchange Act. Under these rules, broker-dealers participating in transactions in low priced securities must first deliver a risk disclosure document which describes that risks associated with such stock, the broker-dealer’s duties, the customer’s rights and remedies, and certain market and other information, and make a suitability determination approving the customer for low priced stock transactions based on the customer’s financial situation, investment experience and objectives. Broker-dealers must also disclose these restrictions in writing and provide monthly account statements to the customer, and obtain specific written consent of the customer. With these restrictions, the likely effect of designation as a low price stock would be to decrease the willingness of broker-dealers to make a market for the stock, to decrease the liquidity of the stock and to increase the transaction costs of sales and purchase of such stocks compared to other securities.

NO DIVIDENDS ANTICIPATED.

The Company intends to retain all future earnings for use in the development of the Company’s business and does not anticipate paying any cash dividends on the Common Stock in the near future.

WE MAY NOT BE ABLE TO OBTAIN THE NECESSARY ADDITIONAL FINANCING TO ACHIEVE OUR STRATEGIC GOALS.

There is no guarantee that we will be able to obtain any additional financing that may be required to continue to expand our business. Our continued viability depends on our ability to raise capital. Changes in economic, regulatory or competitive conditions may lead to cost increases. Management may also determine that it is in our best interest to expand more rapidly than currently intended, to expand marketing activities, to develop new or enhance existing services or products, to respond to competitive pressures or to acquire complementary services, businesses or technologies. In any such case or other change of circumstance, additional financing will be necessary. If any additional financing is required, there can be no assurances that we will be able to obtain such additional financing on terms acceptable to us and at times required by us, if at all. In such event, we may be required to materially alter our business plan or curtail all or a part of our expansion plans.

WE MAY NOT BE ABLE TO MANAGE EXPECTED GROWTH AND INTERNAL EXPANSION.

We have not yet undergone the significant managerial and internal expansion that we expect will occur, and our inability to manage growth could hurt our results of operations. Expansion of our operations will be required to address anticipated growth of our customer base and market opportunities. Expansion will place a significant strain on our management, operational and financial resources. Currently, we have a limited number of employees. We will need to improve existing procedures and controls as well as implement new transaction processing, operational and financial systems, procedures and controls to expand, train and manage our employee base. Our failure to manage growth effectively could have a damaging effect on our business, results of operations and financial condition.

WE FACE SIGNIFICANT EMPLOYMENT-RELATED LEGAL RISK.

We employ people internally and in the workplaces of other businesses. Many of these individuals have access to client information systems and confidential information. An inherent risk of such activity includes possible claims of errors

and omissions; intentional misconduct; release, misuse or misappropriation of client intellectual property, confidential information, funds, or other property; cyber security breaches affecting our clients and/or us; discrimination and harassment claims; employment of illegal aliens; criminal activity; torts; or other claims. Such claims may result in negative publicity, injunctive relief, criminal investigations and/or charges, civil litigation, payment by us of monetary damages or fines, or other material adverse effects on our business.

THE ACQUISITION'S BENEFITS MAY NOT MEET THE EXPECTATIONS OF THE MARKETPLACE, INVESTORS, FINANCIAL ANALYSTS OR INDUSTRY ANALYSTS, THE MARKET PRICE OF OUR SECURITIES MAY DECLINE.

The market price of our common stock may decline as a result of the acquisition described herein if the Company (the post-acquisition entity) does not perform as expected or if we do not otherwise achieve the perceived benefits of the acquisition as rapidly as, or to the extent anticipated by, the marketplace, investors, financial analysts or industry analysts. If such a decline in our stock price occurs, investors may experience a loss and we may not be able to raise future capital, if necessary, in the equity markets.

Overview

The Company was incorporated in the State of Illinois in 1962 and is the successor to employment offices doing business since 1893. The Company provides the following distinctive services: (a) professional placement services specializing in the placement of information technology, engineering, and accounting professionals for direct hire and contract staffing, and (b) temporary staffing services in light industrial staffing.

The Company provides staffing services through a network of branch offices located in major metropolitan areas throughout the United States. The Company's professional staffing services provide information technology, engineering and accounting professionals to clients on either a regular placement basis or a temporary contract basis. The Company's industrial staffing business provides weekly temporary staffing for light industrial clients in Ohio.

Management has implemented a strategy which included cost reduction efforts as well as identifying strategic acquisitions, financed primarily through the issuance of common stock and convertible debt, to improve the overall profitability and cash flows of the Company. We believe our current segments complement one another and position us for future growth.

As of July 7, 2013, the Company's Board of Directors determined that the best course of action related to its Agricultural Division was to terminate its operations, to liquidate its assets, and to focus the business on the light industrial and professional divisions. On July 7, 2013, all staffing was discontinued and the entire operations of the Agricultural Division were discontinued as of August 1, 2013. All employees have been terminated, a one-time expense of approximately \$150,000 was recognized as of September 30, 2013 and an additional expense of \$230,000 was recognized related to uncollected accounts receivable as of September 30, 2014.

Results of Operations

Net Revenues

Consolidated net revenues are comprised of the following:

| <u>(In Thousands)</u> | Year Ended September 30, | |
|--------------------------------|--------------------------|------------------|
| | 2014 | 2013 |
| Industrial contract services | \$ 25,031 | \$ 29,816 |
| Professional contract services | 7,692 | 9,371 |
| Direct hire placement services | 7,088 | 7,317 |
| Consolidated net revenues | <u>\$ 39,811</u> | <u>\$ 46,504</u> |

Consolidated net revenues decreased approximately \$6,693 or 14% compared with the same period last year. In fiscal year 2013 there was an increase in revenue for work performed related to Hurricane Sandy and during fiscal year 2014 certain offices were closed and other customers were terminated as they were not performing, resulting in an overall decrease of revenue during fiscal year 2014 of approximately 14%. Management has taken significant action during the course of the year to improve both revenue growth and profitability. The current management of the Company believes that the changes will eliminate several of the ongoing issues and strengthen the Company's revenue potential.

Cost of Contract Services

Consolidated cost of contract services are comprised of the following:

| <u>(In Thousands)</u> | Year Ended September 30, | |
|--|--------------------------|------------------|
| | 2014 | 2013 |
| Industrial contract services | \$ 21,117 | \$ 26,058 |
| Professional contract services | 5,300 | 6,260 |
| Consolidated cost of contract services | <u>\$ 26,417</u> | <u>\$ 32,318</u> |

Cost of services includes wages and related payroll taxes and employee benefits of the Company's employees while they work on contract assignments. Cost of contract services for the year ended September 30, 2014, decreased by approximately 18% to approximately \$26 million compared with the prior year of approximately \$32 million. Cost of contract services, as a percentage of contract revenue, for the year ended September 30, 2014, decreased by 3% to 66% compared to 69% in the prior year. The most significant decrease in costs of contract services was the result of the decrease in revenue. In addition, there was a significant decrease in our workers compensation rates for the State of Ohio, the rate was decreased by approximately 25% as of July 1, 2014 and in both years there was a rebate received from the Ohio Bureau of Workers Compensation. The overall decrease in workers compensation expense from fiscal year 2014 to fiscal year 2013 was approximately \$450,000.

Gross Profit percentage by segment:

| Gross Profit Margin % | Year Ended September 30, | Year Ended September 30, |
|------------------------------------|--------------------------------|--------------------------------|
| | 2014 | 2013 |
| Direct hire placement services | 100% | 100% |
| Industrial contract services | 15.6% | 12.6% |
| Professional contract services | 31.1% | 33.2% |
| Combined Gross Profit Margin % (1) | 33.6% | 30.5% |

Table of Contents

- (1) Includes gross profit from direct hire placements, which all associated costs are recorded as selling, general and administrative expenses.

Selling, General and Administrative Expenses

Selling, general and administrative expenses include the following categories:

- Compensation in the operating divisions, which includes commissions earned by the Company's employment consultants and branch managers on permanent and temporary placements. It also includes salaries, wages, unrecovered advances against commissions, payroll taxes and employee benefits associated with the management and operation of the Company's staffing offices.
- Administrative compensation, which includes salaries, wages, payroll taxes and employee benefits associated with general management and the operation of the finance, legal, human resources and information technology functions.
- Occupancy costs, which includes office rent, depreciation and amortization, and other office operating expenses.
- Recruitment advertising, which includes the cost of identifying job applicants.
- Other selling, general and administrative expenses, which includes travel, bad debt expense, fees for outside professional services and other corporate-level expenses such as business insurance and taxes.

The Company's largest selling, general and administrative expense is for compensation in the operating divisions. Most of the Company's employment consultants are paid on a commission basis and receive advances against future commissions. When commissions are earned, prior advances are applied against them and the consultant is paid the net amount. At that time, the Company recognizes the full amount as commission expense, and advance expense is reduced by the amount recovered. Thus, the Company's advance expense represents the net amount of advances paid, less amounts applied against commissions.

Selling, general and administrative expenses for the year ended September 30, 2014, decreased by approximately \$1.5 million to approximately \$13.7 million as compared to the prior year of approximately \$15.2 million. During fiscal year 2014 and 2013 there were certain expenses related to professional fees, legal fees and settlement expenses that management believes will not be incurred in future years. In addition, management eliminated certain ineffective managers and other on-going expenses that were not necessary to the core operations of the Company while also strengthening the infrastructure to insure the Company is prepared for future growth. Management expects these higher than normal expenses and actions taken during fiscal year 2014 and 2013 to result in lower on-going general and administrative expenses.

Table of Contents

Interest Expense

Interest expense for the year ended September 30, 2014, increased \$256,000, or 102% compared with the prior year primarily as a result of a change in lender, the interest expense for acquisition payments and higher average borrowings during fiscal year 2014.

Discontinued Operations

As a result of terminating our Agricultural Division in July of 2013, we have classified the operations of that division to loss from discontinued operations, in the accompanying statement of operations. For the years ended September 30, 2014 and 2013 the Company recognized a loss of \$230,000 and \$324,000, respectively, for this division. The Company will continue efforts to actively collect approximately \$265,000 of receivables from a certain customer, however all assets have been fully reserved and the Company does not expect there to be any additional expenses related to this discontinued operation in the future.

Taxes

There were no credits for income taxes as a result of the pretax losses incurred during the periods because there was not sufficient assurance that future tax benefits would be realized.

Liquidity and Capital Resources

The following table sets forth certain consolidated statements of cash flows data from continuing operations (in thousands):

| | For the year ended September 30, 2014 | For the year ended September 30, 2013 |
|--|---|---|
| Cash flows provided by (used in) continuing operating activities | \$ 308 | \$ (1,112) |
| Cash flows used in investing activities | \$ (371) | \$ (341) |
| Cash flows (used in) provided by financing activities | \$ (108) | \$ 1,413 |

Shareholders' equity as of September 30, 2014, was approximately \$2,065,000 which represented approximately 21% of total assets. The net loss for the year ended September 30, 2014, was approximately \$1,355,000.

Net cash provided by (used in) operating activities for the years ended September 30, 2014 and 2013 was approximately \$286,000 and (\$1,071,000), respectively. The fluctuation is due to the decrease in revenue and resulting decrease in account receivable, which were off-set by significant decreases in overall operating liabilities.

Table of Contents

Net cash used in investing activities for the years ended September 30, 2014 and 2013 was (\$371,000) and (\$345,000) respectively. These uses related primarily to acquisition payments and purchasing of fixed assets.

Net cash flow used in financing activities for the year ended September 30, 2014 was approximately (\$108,000) compared to \$1,413,000 provided by the same in the year ended September 30, 2013. At the end of fiscal year 2013, the Company changed lenders and was able to significantly increase its borrowing with this new lender. During fiscal year 2014, the Company sold common stock for cash of approximately \$470,000 and entered into a new subordinated convertible note for cash of approximately \$517,000. This was off-set by a decrease in net short term borrowings related to an overall lower accounts receivable balance.

All of the Company's office facilities are leased. As of September 30, 2014, future minimum lease payments under non-cancelable lease commitments having initial terms in excess of one year, including closed offices, totaled approximately \$1,019,000.

On April 22, 2013, the Company finalized an Amendment to the Asset Purchase Agreement by and among DMCC Staffing, LLC, an Ohio limited liability company, RFFG of Cleveland, LLC an Ohio limited liability company (each a "Seller" and together, "Sellers"), the Company, and Triad Personnel Services, Inc., an Illinois corporation and wholly owned subsidiary of the Company ("Buyer").

The Company agreed to pay the Sellers additional cash consideration of between \$550,000 and \$650,000 depending on the length of payment terms and 1,100,000 shares of common stock, in full satisfaction of all amounts owed to Seller, related to the Asset Purchase Agreement. The Company issued 1,100,000 shares of common stock on July 2, 2013, which was valued at approximately \$330,000. During the year ended September 30, 2013, the Company paid \$200,000 of the cash consideration noted above. The Company has accrued \$350,000 at September 30, 2013, for the balance of the liability, however has elected to pay the remaining amount over two years. The total payments over the two years will be approximately \$450,000 with the additional \$100,000 to be recorded as interest expense. During the year ended September 30, 2014, the Company paid approximately \$225,000 to the Sellers, \$150,000 of principle and approximately \$75,000 of interest. The Company has approximately \$200,000 accrued at September 30, 2014 related to the remaining liability.

In connection with the completion of the sale of shares of common stock to PSQ in fiscal 2009, Herbert F. Imhoff, Jr., the Company's then Chairman and Chief Executive Officer retired from those positions and his employment agreement with the Company was replaced by a new consulting agreement. Under the consulting agreement, the Company became obligated to pay an annual consulting fee of \$180,000 over a five-year period and to issue 500,000 shares of common stock to Mr. Imhoff, Jr. for no additional consideration, and the Company recorded a liability for the net present value of the future fee payments in the amount of \$790,000. As of September 30, 2014, \$60,000 remains payable under this agreement and is included in accrued compensation on the Company's balance sheet. On January 31, 2013, Mr. Imhoff Jr. retired from all positions with the Company.

On September 27, 2013, the Company ("Borrower") entered into agreements with ACF FINCO I LP (successor-in-interest to Keltic Financial Partners II, LP), a limited partnership formed under the laws of the State of Delaware ("ACF")("Lender") that provide the Company with long term financing through a six million dollar (\$6,000,000) secured revolving note (the "Note"). The Note has a term of three years and has no amortization prior to maturity. The interest rate for the Note is a fluctuating rate that, when annualized, is equal to the greatest of (A) the Prime Rate plus three and one quarter percent (3.25%), (B) the LIBOR Rate plus six and one quarter percent (6.25%), and (C) six and one half percent (6.50%), with the interest paid on a monthly basis. Loan advances pursuant to the Note are based on the accounts receivable balance and other assets. Upon execution of the Note, approximately three million fifty thousand dollars (\$3,050,000) was advanced for the full repayment of the AR Credit Facility and fees from Wells Fargo related to the early termination thereof. At the time of close, there was approximately nine hundred thousand (\$900,000) of availability under the new Note in excess of amounts paid to extinguish the debt and fees with Wells Fargo. The Company incurred certain cash expense and commitment fees related to obtaining the agreement of approximately \$170,000, which has been paid. The Note is secured by all of the Company's property and assets, whether real or personal, tangible or intangible, and whether now owned or hereafter acquired, or in which it now has or at any time in the future may acquire any right, title or interests. On April 21, 2014, the Company entered into the First Amendment and Waiver to the Loan and Security Agreement with ACF to adjust the covenants. On December 3, 2014 the Company

Table of Contents

entered into a Second Amendment and Waiver to the Loan and Security Agreement with ACF to adjust the future covenants as outlined below and waived certain defaults. The ACF facility includes certain covenants which require compliance until termination of the agreement. As of the date of this report, the Company was in compliance with all such covenants or had received waivers related thereto.

The Company has several administrative covenants and the following financial covenant:

The Company must maintain the following EBITDA:

- (a) The three (3) consecutive calendar month period ending on December 31, 2014, to be a negative number exceeding negative Two Hundred Fifty Thousand and 00/100 Dollars (\$250,000);
- (b) The six (6) consecutive calendar month period ending on March 31, 2015, to be a negative number exceeding negative Five Hundred Thousand and 00/100 Dollars (\$500,000);
- (c) The nine (9) consecutive calendar month period ending on June 30, 2015, to be a negative number exceeding negative Seven Hundred Fifty Thousand and 00/100 Dollars (\$750,000);
- (d) The twelve (12) consecutive calendar month period ending on September 30, 2015, to be a negative number exceeding negative One Million and 00/100 Dollars (\$1,000,000); and
- (e) For any period commencing on or after October 1, 2015, no less than such amounts as are established by Lender for such period in Lender's permitted discretion based on the annual financial projections including such period delivered by Borrower.

The agreement includes certain covenants which require compliance until termination of the agreement. As of September 30, 2014, the Company was not in compliance with the EBITDA covenant or other administrative covenants, however as of the date of this report, the Company was in compliance with the above EBITDA covenant and had received a waiver from the Lender for other administrative covenants. At September 30, 2014, there was approximately \$730,000 available on the line of credit.

The Company believes that the borrowing availability under the ACF facility will be adequate to fund the working capital needs. In recent years, the Company has incurred significant losses and negative cash flows from operations. Management has implemented a strategy which included cost reduction efforts as well as identifying strategic acquisitions, financed primarily through the issuance of common stock and convertible debt, to improve the overall profitability and cash flows of the Company. In addition, as discussed above, the Company entered into the ACF facility to provide working capital financing.

On March 31, 2014, the Company entered into a Securities Purchase Agreement (the "SPA") with Aracle SPF I, LLC ("Aracle") pursuant to which Aracle has the right to acquire up to 12 units (the "Units"), for \$50,000 per Unit, with each Unit consisting of 250,000 shares of common stock of the Company and 125,000 common stock purchase warrants. The warrants are exercisable 6 months after issuance, have a term of 4 years, and have an exercise price of \$0.25 per warrant share. The SPA contains standard representations, warranties, and covenants. In addition, the SPA contains a price adjustment mechanism that requires the Company, with certain exceptions, to issue additional shares of common stock to the investor in the event the Company, within 12 months of the initial closing under the SPA, issues certain equity securities at a price per share less than \$0.20, provided, however, as long as the Company is listed on the NYSE MKT the total number of shares issuable under the foregoing adjustment provision may not exceed 19.9% of the Company's outstanding shares of common stock on March 30, 2014. Further, in the event the Company is delisted from the NYSE MKT while Aracle owns at least 51% of the shares issued to it under the SPA, the Company shall issue an additional 3,000,000 shares to Aracle, and the 12 month price adjustment period shall be extended to 36 months. The Company agreed to appoint two new members to the Company's Board of Directors within 60 days of the initial closing, which new members are subject to the prior approval of Aracle. The Company granted Aracle piggyback registration rights with respect to the shares and the shares of common stock underlying the warrants. The warrants do not include any price protection clause. Concurrently with entering into the SPA, the Company and Aracle conducted an initial closing thereunder, in which Aracle purchased 9.5 Units for \$475,000. On April 16, 2014, the Company, Aracle and a second

Table of Contents

institutional investor entered into certain Securities Purchase Agreements (“SPA”) pursuant to which the investors purchased 2.5 Units for \$125,000. The Company incurred certain expenses related to the SPA’s and the closings thereunder of approximately \$130,000, which were paid from the proceeds for net proceeds of approximately \$470,000.

On August 7, 2014, the Company issued a Convertible Note (the “Note”) with an original principal balance of \$632,500 to Brio Capital Master Fund LTD (“Brio”), for a purchase price of \$550,000. The Note matures on February 6, 2016, and is payable in thirteen monthly installments of \$48,654, commencing in the sixth month post-closing. Brio has the right, however not the obligation, six months after closing, to convert all or any part of the outstanding Note into the Company’s common stock at an initial conversion price of \$0.20 per share. After six months from closing, the conversion price will have a one-time reset to the lower of \$0.20 or 90% of the average of the 3 lowest closing prices for the previous 10 trading days, subject to a floor of \$0.14 per share. The Company can force conversion if the Company’s common stock trades at 250% greater than the conversion price for 20 consecutive trading days. In addition to the Note, the Company issued a warrant to purchase up to 2,371,875 shares of the Company common stock. The warrant is exercisable at \$0.25 per share, vests 6 months after the closing, and expires 5 years thereafter.

In recent years, the Company has incurred significant losses and negative cash flows from operations. Management has implemented a strategy which included cost reduction efforts as well as identifying strategic acquisitions, financed primarily through the issuance of common stock, to improve the overall profitability and cash flows of the Company. Management believes with current cash flow from operations, the preferred offering and the availability under the ACF facility, the Company will have sufficient liquidity for the next 12 months.

Off-Balance Sheet Arrangements

As of September 30, 2014 and 2013, and during the two years then ended, there were no transactions, agreements or other contractual arrangements to which an unconsolidated entity was a party, under which the Company (a) had any direct or contingent obligation under a guarantee contract, derivative instrument or variable interest in the unconsolidated entity, or (b) had a retained or contingent interest in assets transferred to the unconsolidated entity.

Critical Accounting Policies

The consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America and the rules of the United States Securities and Exchange Commission.

The following accounting policies are considered by management to be “critical” because of the judgments and uncertainties involved, and because different amounts would be reported under different conditions or using different assumptions.

Estimates and Assumptions

Management makes estimates and assumptions that can affect the amounts of assets and liabilities reported as of the date of the consolidated financial statements, as well as the amounts of reported revenues and expenses during the periods presented. Those estimates and assumptions typically involve expectations about events to occur subsequent to the balance sheet date, and it is possible that actual results could ultimately differ from the estimates. If differences were to occur in a subsequent period, the Company would recognize those differences when they became known. Significant matters requiring the use of estimates and assumptions include, but may not be limited to, deferred income tax valuation allowances, accounts receivable allowances, accounting for acquisitions, accounting for derivative liabilities and evaluation of impairment. Management believes that its estimates and assumptions are reasonable, based on information that is available at the time they are made.

Revenue Recognition

Direct hire placement service revenues are recognized when applicants accept offers of employment, less a provision for estimated losses due to applicants not remaining employed for the Company’s guarantee period. Contract staffing service revenues are recognized when services are rendered.

Table of Contents

Cost of Contract Staffing Services

The cost of contract services includes the wages and the related payroll taxes and employee benefits of the Company's employees while they work on contract assignments.

Income Taxes

We record a provision for income taxes for the anticipated tax consequences of the reported results of operations using the asset and liability method. Under this method, we recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial reporting and tax basis of assets and liabilities, as well as for operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using the tax rates that are expected to apply to taxable income for the years in which those tax assets and liabilities are expected to be realized or settled. We record a valuation allowance to reduce our deferred tax assets to the net amount that we believe is more likely than not to be realized.

Due to the private sale of shares of common stock to LEED HR during fiscal 2012 and the resulting change in control, the Company may be limited by Section 382 of the Internal Revenue Code as to the amount of net operating losses that may be used in future years.

We recognize tax benefits from uncertain tax positions only if we believe that it is more likely than not that the tax position will be sustained on examination by the taxing authorities based on the technical merits of the position. Although we believe that we have adequately reserved for our uncertain tax positions, we can provide no assurance that the final tax outcome of these matters will not be materially different. We make adjustments to these reserves when facts and circumstances change, such as the closing of a tax audit or the refinement of an estimate. To the extent that the final tax outcome of these matters is different than the amounts recorded, such differences will affect the provision for income taxes in the period in which such determination is made and could have a material impact on our financial condition and operating results.

Accounts Receivable

The Company extends credit to its various customers based on evaluation of the customer's financial condition and ability to pay the Company in accordance with the payment terms. An allowance for placement fall-offs is recorded, as a reduction of revenues, for estimated losses due to applicants not remaining employed for the Company's guarantee period. An allowance for doubtful accounts is recorded, as a charge to bad debt expense, where collection is considered to be doubtful due to credit issues. These allowances together reflect management's estimate of the potential losses inherent in the accounts receivable balances, based on historical loss statistics and known factors impacting its customers. The nature of the contract service business, where companies are dependent on employees for the production cycle allows for a small accounts receivable allowance. Based on management's review of accounts receivable, an allowance for doubtful accounts of approximately \$395,000 and \$272,000 is considered necessary as of September 30, 2014, and September 30, 2013, respectively. The Company charges uncollectible accounts against the allowance once the invoices are deemed unlikely to be collectible. Based on management's review of accounts receivables related to discontinued operations, an allowance of approximately \$265,000 and \$35,000 are considered necessary as of September 30, 2014 and September 30, 2013, respectively.

Goodwill

Goodwill represents the excess of cost over the fair value of the net assets acquired in the acquisitions of DMCC Staffing, LLC, RFFG of Cleveland, LLC, and Ashley Ellis, LLC. The Company assesses goodwill for impairment at least annually. Testing Goodwill for impairment, which allows the Company to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the entity determines that this threshold is not met, then performing the two-step impairment test is unnecessary. An impairment loss would be recognized to the extent the carrying value of goodwill exceeds its implied fair value.

Table of Contents

Fair Value Measurement

The Company follows the provisions of the accounting standard which defines fair value, establishes a framework for measuring fair value and enhances fair value measurement disclosure. Under these provisions, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date.

The standard establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use on unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company’s assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

The fair value of the Company’s current assets and current liabilities, excluding the derivative liability, approximate their carrying values due to their short term nature. The carrying value of the Company’s long-term liabilities and the derivative liability represents their fair value based on level 3 inputs, as discussed in Notes 6 and 8. The Company’s goodwill and other intangible assets are measured at fair value on a non-recurring basis using level 3 inputs, as discussed in Note 4.

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposure to cash flow, market or foreign currency risk. Terms of convertible promissory note instruments are reviewed to determine whether or not they contain embedded derivative instruments that are required under ASC 815 “*Derivative and Hedging*” (ASC 815) to be accounted for separately from the host contract, and recorded on the balance sheet at fair value. The fair value of derivative liabilities, if any, is required to be revalued at each reporting date, with corresponding changes in fair value recorded in current period operating results.

Freestanding warrants issued by the Company in connection with the issuance or sale of debt and equity instruments are considered to be derivative instruments and are evaluated and accounted for in accordance with the provisions of ASC 815. Pursuant to ASC 815, an evaluation of specifically identified conditions is made to determine whether fair value of warrants issued is required to be classified as equity or as a derivative liability.

Intangible Assets

Customer lists, non-compete agreements, customer relationships, management agreements and trade names were recorded at their estimated fair value at the date of acquisition and are amortized over their estimated useful lives ranging from two to ten years using both accelerated and straight-line methods.

Impairment of Long-lived Assets

The Company records an impairment of long-lived assets used in operations, other than goodwill, when events or circumstances indicate that the asset might be impaired and the estimated undiscounted cash flows to be generated by those assets over their remaining lives are less than the carrying amount of those items. The net carrying value of assets not recoverable is reduced to fair value, which is typically calculated using the discounted cash flow method.

Table of Contents

Stock-Based Compensation

The Company accounts for stock-based awards to employees in accordance with applicable accounting principles, which requires compensation expense related to share-based transactions, including employee stock options, to be measured and recognized in the financial statements based on a determination of the fair value of the stock options. The grant date fair value is determined using the Black-Scholes-Merton (“Black-Scholes”) pricing model. For all employee stock options, we recognize expense over the requisite service period on an accelerated basis over the employee’s requisite service period (generally the vesting period of the equity grant). The Company’s option pricing model requires the input of highly subjective assumptions, including the expected stock price volatility, expected term, and forfeiture rate. Any changes in these highly subjective assumptions significantly impact stock-based compensation expense.

Options awarded to purchase shares of common stock issued to non-employees in exchange for services are accounted for as variable awards in accordance with applicable accounting principles. Such options are valued using the Black-Scholes option pricing model.

See Note 9 for the assumptions used to calculate the fair value of stock-based employee and non-employee compensation. Upon the exercise of options, it is the Company’s policy to issue new shares rather than utilizing treasury shares.

Segment Data

The Company has two operating business segments a) Contract staffing services, and b) Direct hire placement services. These operating segments were determined based primarily on how the chief operating decision maker views and evaluates our operations. Operating results are regularly reviewed by the chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Other factors, including type of business, type of employee, length of employment and revenue recognition are considered in determining these operating segments.

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, “Revenue from Contracts with Customers,” which supersedes or replaces nearly all GAAP revenue recognition guidance. The new guidance establishes a new control-based revenue recognition model, changes the basis for deciding when revenue is recognized over time or at a point in time and will expand disclosures about revenue. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2016 and interim periods within those years. Early adoption is not permitted. The Company is currently assessing the impact of ASU 2014-09.

In August 2014, the FASB issued Accounting Standards Update 2014–15 (“ASU 2014-15”), “*Presentation of Financial Statements – Going Concern (Subtopic 205 – 40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern.*” ASU 2014-15 requires management to evaluate whether there are conditions or events that raise substantial doubt about the entity’s ability to continue as a going concern, and to provide certain disclosures when it is probable that the entity will be unable to meet its obligations as they become due within one year after the date that the financial statements are issued. ASU 2014-15 is effective for the annual period ended December 31, 2016 and for annual periods and interim periods thereafter with early adoption permitted. The Company does not expect this ASU to have a significant impact on its financial position or results of operations.

In November 2014, FASB issued ASU No. 2014-17, *Business Combinations (Topic 805): Pushdown Accounting (a consensus of the FASB Emerging Issues Task Force.* The amendments in this Update provide an acquired entity with an option to apply pushdown accounting in its separate financial statements upon occurrence of an event in which an acquirer obtains control of the acquired entity. An acquired entity may elect the option to apply pushdown accounting in the reporting period in which the change-in-control event occurs. An acquired entity should determine whether to elect to apply pushdown accounting for each individual change-in-control event in which an acquirer obtains control of the acquired entity. If pushdown accounting is not applied in the reporting period in which the change-in-control event occurs, an acquired entity will have the option to elect to apply pushdown accounting in a subsequent reporting period to the acquired entity’s most recent change-in-control event. An election to apply pushdown accounting in a reporting period after the reporting period in which the change-in-control event occurred should be considered a change in accounting principle in accordance with Topic 250, Accounting Changes and Error Corrections. If pushdown accounting

[Table of Contents](#)

is applied to an individual change-in-control event, that election is irrevocable. The amendments in this Accounting Standards Update are effective on November 18, 2014. After the effective date, an acquired entity can make an election to apply the guidance to future change-in-control events or to its most recent change-in-control event. However, if the financial statements for the period in which the most recent change-in-control event occurred already have been issued or made available to be issued, the application of this guidance would be a change in accounting principle. The adoption of ASU 2014-17 did not have a material impact on the Company's consolidated financial statements.

Other recent accounting pronouncements issued by FASB and the SEC did not or are not believed by management to have a material impact on the Company's present or future financial statements.

DESCRIPTION OF CAPITAL STOCK

Our authorized capital stock consists of 200 million shares of common stock, no par value per share, and 20 million shares of preferred stock, no par value per share, of which 1 million are designated as Series A Convertible Preferred Stock. After completion of the Scribe acquisition, 28,994,014 shares of our common stock and 840,000 shares of our preferred stock will be issued and outstanding. The following description of our capital stock and certain provisions of our articles of incorporation and by-laws is a summary. The description below is qualified in its entirety by the provisions of our articles of incorporation and by-laws, which have been filed as exhibits to our prior SEC filings.

Common Stock

The issued and outstanding shares of our common stock are, and the shares of our common stock that will be issued as a result of the conversion of any Series A Preferred Shares or exercise of any Warrants will be, upon payment for the shares, validly issued, fully paid, and non-assessable. Holders of shares of our outstanding common stock are entitled to receive dividends if our Board of Directors decides to declare any dividends. Our common stock is neither redeemable nor convertible. Upon liquidation, dissolution, or winding up of the Company, holders of shares of our common stock are entitled to receive, pro rata, our assets that are legally available for distribution, after payment of all debts and other liabilities. Each outstanding share of common stock is entitled to one vote on all matters submitted to a vote of shareholders. Our articles do not allow for cumulative voting in the election of directors.

Preferred Stock

Our articles of incorporation authorize the issuance of 20 million shares of preferred stock, no par value per share. Our Board of Directors is authorized to provide for the issuance of shares of preferred stock in one or more series, and to fix for each series voting rights, if any, designation, preferences and relative, participating, optional or other special rights and such qualifications, limitations, or restrictions as provided in a resolution or resolutions adopted by our Board of Directors.

The purpose of authorizing our Board of Directors to issue preferred stock and determine its rights and preferences is to eliminate delays associated with a shareholder vote on specific issuances. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions, future financings, and other corporate purposes, could have the effect of making it more difficult for a third party to acquire, or could discourage a third party from seeking to acquire, a majority of our outstanding voting stock. Upon completion of the Scribe acquisition, there will be 840,000 shares of Series A Preferred Stock outstanding, and we have no present plans to issue any other shares of preferred stock.

Each share of the Series A Preferred Stock is initially convertible, at the election of the holder, into 50 shares of the Company's common stock. The foregoing conversion ratio is subject to standard adjustment mechanisms, as set forth in the designation of preferences of the Preferred Stock, as filed with the Illinois Secretary of State (the "Designation"). The Designation provides the holders of the Preferred Stock with certain other preferences and rights, including, but not limited to:

1. The right to receive cumulative compounding dividends in the amount of 8% of the liquidation value of the Preferred Stock, per annum, payable in cash or additional shares of Preferred Stock, if and when declared by our Board;

Table of Contents

2. The right to participate, on an as converted basis, in any distributions or dividends the Company declares on its Common Stock;

3. The right to a liquidation preference, over the holders of the Company's Common Stock, equal to the liquidation value of the Preferred Stock plus all accrued and unpaid dividends thereon, and thereafter to participate, on an as converted basis, with the holders of the Company's Common Stock in all additional distributions;

4. The right to appoint two directors to the Board;

5. The right to vote, as a single class, on an as converted basis, with the holders of the Company's Common Stock on all matters submitted to a vote of the holders of the Company's Common Stock; and

6. The Company may not take several actions, as set forth in the Designation, without the prior approval of the holders of a majority of the outstanding shares of Preferred Stock.

Options & Warrants

After completion of the Scribe acquisition, Warrants will be issued for the right to purchase up to 6,400,000 shares of our common stock at an exercise price of \$0.20 per share. Each Warrant will be exercisable for a period of 5 years after issuance.

The exercise prices of the Warrants are subject to adjustment in the event of stock splits, stock dividends, combinations and similar events affecting our common stock. In addition, in the event we consummate a fundamental corporate transaction such as a merger or consolidation with or into another person or other reorganization event in which our common stock is converted or exchanged for securities, cash or other property, or we convey or otherwise dispose of all or substantially all of our assets, then following such event, the holders of the Warrants will be entitled to receive, for each share that would have been issuable upon exercise of the Warrants immediately prior to such fundamental transaction, the number of shares of common stock of the successor or acquiring corporation, and any additional consideration receivable as a result of such fundamental transaction by a holder of the number of shares of common stock for which the Warrants are exercisable immediately prior to such fundamental transaction. Any successor to us or surviving entity shall assume our obligations under the Warrants.

The holders of the Warrants must surrender payment in cash of the aggregate exercise price of the shares being acquired upon exercise of the Warrants. No fractional shares of common stock will be issued in connection with the exercise of the Warrants but in any case where the holder would be entitled to receive a fractional share, the number of shares will be rounded up to the nearest whole share.

The Warrants do not entitle the holders thereof to any voting rights, dividends or other rights as a stockholder of ours prior to the exercise of their Warrants.

The Warrants are not listed on, and we do not intend to list any of them on, any securities exchange or automated quotation system.

Listing

Our shares of common stock are listed on the NYSE MKT under the symbol "JOB".

ADDITIONAL INFORMATION

ACTION BY WRITTEN CONSENT

Because our Common Stock is currently listed on the NYSE MKT and we are therefore subject to Section 712 of the NYSE MKT Company Guide, we must obtain shareholder approval before issuing Common Stock, or securities convertible into Common Stock, in any transaction or series of related transactions, if the number of shares of Common Stock to be issued is, or will be upon issuance, equal to 20% or more of the number of shares of Common Stock outstanding before the issuance of the Common Stock or securities convertible into Common Stock. The Company currently has outstanding 28,944,014 shares of Common Stock, exclusive of 200,000 shares of Preferred Stock issued on January 8, 2014. Therefore, the issuance of 640,000 shares of Preferred Stock and of the Warrants in the transactions set forth in the SCRIBE Agreement could result in the issuance of Common Stock greater than 20% of the currently outstanding number of shares of Common Stock. Section 7.10 of the Illinois Business Corporation Act (“IBCA”) and our organizational documents permit any action that may be taken at a meeting of the shareholders to be taken by written consent by the holders of the number of shares of voting stock required to approve the action at a meeting. On December 11, 2014, the holders of shares of Common Stock, representing a majority of our then-outstanding voting power, approved by written consent the issuance of greater than 20 percent of the Company’s outstanding Common Stock for the acquisition of Scribe.

NO FURTHER SHAREHOLDER ACTION IS REQUIRED

Other than the shareholder written consent described above, no other votes are necessary or required to effectuate the transactions described in this Information Statement. The Company anticipates that the shareholder consent described in this Information Statement will become effective on or promptly after March , 2015.

EFFECTS OF THE PROPOSED ISSUANCE

In recent years, broad stock market indices, in general, and smaller capitalization companies, in particular, have experienced substantial price fluctuations. The issuance of a significant amount of Common Stock may further adversely affect the price of the Common Stock. The influx of such a substantial number of common shares into the public market could have a significant negative effect on the trading price of the Common Stock. As of December 10, 2014, approximately 25.7 million shares of Common Stock were outstanding. An additional approximate 640,000 shares of Preferred Stock which is convertible into 32,000,000 Common Stock will be outstanding upon the closing of the Scribe acquisition. Issuance of these shares of Common Stock may substantially dilute the ownership interests of our existing shareholders. The potential issuance of such additional shares of Common Stock may create downward pressure on the trading price of our Common Stock. After issuance, the shares of Common Stock contemplated by this Information Statement, will vote with the Common Stock on all matters submitted to the holders of the Common Stock.

THE STOCK EXCHANGE AGREEMENT

On December 11, 2014, the Company entered into the Stock Exchange Agreement (the “SCRIBE Agreement”) with Brittany M. Dewan as Trustee of the Derek E. Dewan Irrevocable Living Trust II dated the 27th of July, 2010, Brittany M. Dewan, individually, Allison Dewan, individually, Mary Menze, individually, and Alex Stuckey, individually (collectively, the “Scribe Shareholders”). Pursuant to the terms of the SCRIBE Agreement the Company will acquire 100% of the outstanding stock of Scribe Solutions Inc., (“Scribe”) from the Scribe Shareholders for 640,000 shares of Series A Preferred Stock (the “Preferred Stock”) of the Company. The Company and the Scribe Shareholders executed and delivered the Scribe Agreement in reliance upon the exemption from registration afforded by Section 4(a)(2) of the Securities Act of 1933, (the “Securities Act”), In addition, the Company will issue warrants, each with a \$0.20 exercise price, and a five year term (the “Warrants”), to certain warrant holders in Scribe for warrants to purchase common stock in the Company in reliance upon the exemption from registration afforded by Section 4(a)(2) of the Securities Act. This is all based on a valuation of Scribe of not less than \$6,400,000. Upon the closing of the transaction, the Company will issue 640,000 shares of Preferred Stock in reliance on Section 4(a)(2) of the Securities Act. The transaction has been unanimously approved by the Boards of Directors of the Company (the “Board”) and Scribe and a majority of their respective shareholders. The closing of the transactions set forth in the SCRIBE Agreement is subject to customary conditions to closing, and is expected to occur prior to March 31, 2015.

[Table of Contents](#)

Scribe has made certain additional customary covenants, including, among others, to conduct its business in the ordinary course between the execution of the SCRIBE Agreement and the closing of the acquisition and not to engage in certain kinds of transactions during that period, subject to certain exceptions. We have agreed not to take certain specified actions without Scribe's consent during the time between execution of the SCRIBE Agreement and the closing of the acquisition. The SCRIBE Agreement is definitive between the Company and the Scribe Shareholders.

This summary of the material terms of the SCRIBE Agreement set forth herein is qualified in its entirety by reference to the SCRIBE Agreement, which is attached as [Annex B](#) to this Information Statement.

The parties to the SCRIBE Agreement are the Company and the Scribe Shareholders. The Company has a business address of 184 Shuman Blvd., Suite 420 Naperville, Illinois 60563. We are an Illinois corporation that provides the following distinctive services: (a) professional placement services specializing in the placement of information technology, engineering, and accounting professionals for direct hire and contract staffing, and (b) temporary staffing services in light industrial staffing. All of the following individuals were also a party to the SCRIBE Agreement as SCRIBE Shareholders: Brittany M. Dewan as Trustee of the Derek E. Dewan Irrevocable Living Trust II dated the 27th of July, 2010, Brittany M. Dewan, individually, Allison Dewan, individually, Mary Menze, individually, and Alex Stuckey.

BACKGROUND OF THE ACQUISITION

The following chronology summarizes the key meetings and events that led to our signing of the Scribe Stock Purchase Agreement. We held many conversations, both by telephone and in-person, about possible strategic alternatives. The chronology below covers only the key events leading up to the entry into the Scribe Stock Purchase Agreement and does not purport to catalogue every conversation among our representatives or between the Company and other parties.

On September 11, 2014, a representative of Scribe management attended an investor presentation in New York. Shortly thereafter, management contacted the management of General Employment.

On September 30, 2014, Scribe management, including Derek Dewan, presented Scribe Solutions Inc. to the Board of Directors. Based on the presentation and information provided, the Board approved management to continue discussion with Scribe management on a possible transaction between the two companies.

During the period from September 30, 2014 to December 1, 2014, the two Companies traded due diligence material and management had several meetings on the strategic nature of the merger.

On December 9, 2014, the Board of Directors approved and on December 10, 2014 the majority of the shareholders of the Company approved and authorize the execution by the Company of the Purchase Agreement, the Warrants, and all other agreements, instruments and certificates contemplated to be delivered pursuant to or in connection with the Purchase Agreement, such Purchase Agreement to be in substantially the form delivered to the undersigned Shareholder, with such changes, additions, modifications and deletions therein and containing such terms as Andrew J. Norstrud, the Chief Executive Officer of the Company deems necessary or appropriate.

REASONS FOR THE ACQUISITION

The Company is a staffing company that is publicly traded under the ticker symbol JOB, with approximately \$40 million in revenue and has been losing money for the past several years. The staffing industry has more than \$100 billion in annual sales and is expected to grow at a rate higher than 10% per year. This outlook is only expected to improve with anticipated additional governmental regulation, such as the new health care requirements and as companies increase their use of staffing companies to augment their human resource requirements.

Table of Contents

The staffing industry is highly competitive with few barriers to entry, other than access to working capital, as many of the companies strategically use their staffing companies to extend their own cash flow requirement for payroll. This has created a dynamic where more than 6,000 staffing firms in the United States have been open for more than one year. There are only a few staffing companies with more than \$100 million in revenue and the majority of staffing companies have less than \$5 million in annual revenue.

The Company is caught in the middle of the industry, not big enough to fully capitalize on economies of scale, however too big to not have a corporate reporting structure. The Company is also a public entity, which makes it subject to the reporting requirements of the Exchange Act of 1934 and increases its need for a corporate governance structure. Being a public company, however, also enables the Company to incentivize its employees with equity and align their focus with the Company's overall goals.

The Company is seeking significant growth in revenue and profitability over the course of the next two years through a series of acquisitions and internal expansion strategies. The Company seeks to acquire companies that (i) are cash flow positive and are accretive to the Company's net income, or that can be in less than 180 days from acquisition, (ii) provide additional services to sell through its current infrastructure, (iii) strategically align with the Company's culture, and (iv) provide or align with core technology, infrastructure and management.

The acquisition of Scribe meets all of these criteria. In addition, Scribe provides the Company entry into the medical staffing industry and significantly adds to its core executive management team.

NO DISSENTER'S RIGHTS

The corporate action described in this Information Statement will not afford to our shareholders the opportunity to dissent from the actions described herein or to receive an agreed or judicially appraised value for their shares.

NO REGULATORY APPROVALS

There are no federal or state regulatory requirements that must be complied with or any approval that must be obtained in connection with the Scribe acquisition.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

We have not obtained a tax opinion from legal counsel or tax experts on the Scribe acquisition. The acquisition is intended for federal income tax purposes to qualify as one or more reorganizations within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended, and the regulations promulgated thereunder. Based on the provisions of the Internal Revenue Code of 1986, as amended, existing United States Treasury regulations promulgated thereunder and administrative and judicial interpretations thereof, all as in effect as of the date hereof and all of which are subject to change (possibly with retroactive effect), we do not believe that the acquisition will give rise to the recognition of gain or losses to us or our stockholders for U.S. federal income tax purposes. The foregoing summary is for general information only and does not discuss any state, local, foreign or other tax consequences.

ANTICIPATED ACCOUNTING TREATMENT

The Company anticipates accounting for the transaction as a business combination using the acquisition method of accounting for financial accounting purposes, whereby the estimated purchase price will be allocated to the assets and liabilities of Scribe based on their estimated fair values on the closing date of the acquisition, following Financial Accounting Standards Board Accounting Standards Codification Topic 805, Business Combinations.

INTEREST OF CERTAIN PERSONS IN MATTERS TO BE ACTED UPON

None of the Company's executive officers or directors has a substantial interest, direct or indirect, by security holdings or otherwise in the Acquisition which is not shared by all of the Company's stockholders.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
General Employment Enterprises, Inc.
Naperville, Illinois

We have audited the accompanying consolidated balance sheets of General Employment Enterprises, Inc. (the “Company”) as of September 30, 2014 and 2013, and the related consolidated statements of operations, shareholders’ equity, and cash flows for each of the years then ended. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of General Employment Enterprises, Inc. as of September 31, 2014 and 2013, and the consolidated results of its operations and cash flows for each of the years then ended in conformity with US generally accepted accounting principles.

**GENERAL EMPLOYMENT ENTERPRISES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

1. Description of Business

General Employment Enterprises, Inc. (the “Company”, “us”, “our” or “we”) was incorporated in the State of Illinois in 1962 and is the successor to employment offices doing business since 1893 and provides staffing services through a network of branch offices located in major metropolitan areas throughout the United States. The Company’s professional staffing services provide information technology, engineering and accounting professionals to clients on either a regular placement basis or a temporary contract basis. The Company’s agricultural staffing services provided agricultural workers for farms and groves, until July 7, 2013, when the Company ceased operations within its Agricultural Division, terminated all the division’s employees and began the process of liquidating all assets of this Division. The Company’s industrial staffing business provides weekly temporary staffing for light industrial clients in Ohio.

The Company has experienced significant losses in the past. Management has implemented a strategy which included cost reduction efforts, closure of the Agricultural Division as well as identifying strategic acquisitions, financed primarily through the issuance of stock and convertible debt, to improve the overall profitability and cash flows of the Company. The Company entered into a three year revolving credit agreement with ACF Finco I LP (formerly Keltic) to provide working capital financing. The agreement allows ACF Finco I LP to advance the Company funds based on a percentage of eligible invoices. Management believes with current cash flow from operations, the preferred offering and the availability under the ACF Finco I LP loan agreement, the Company will have sufficient liquidity for the next 12 months.

2. Significant Accounting Policies and Estimates

Basis of Presentation

The consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America and the rules of the United States Securities and Exchange Commission.

Principles of Consolidation

The consolidated financial statements include the accounts and transactions of the Company and its wholly-owned subsidiaries. All significant inter-company accounts and transactions are eliminated in consolidation.

Estimates and Assumptions

Management makes estimates and assumptions that can affect the amounts of assets and liabilities reported as of the date of the condensed consolidated financial statements, as well as the amounts of reported revenues and expenses during the periods presented. Those estimates and assumptions typically involve expectations about events to occur subsequent to the balance sheet date, and it is possible that actual results could ultimately differ from the estimates. If differences were to occur in a subsequent period, the Company would recognize those differences when they became known. Significant matters requiring the use of estimates and assumptions include, but may not be limited to, deferred income tax valuation allowances, accounts receivable allowances, accounting for acquisitions, accounting for derivatives and evaluation of impairment. Management believes that its estimates and assumptions are reasonable, based on information that is available at the time they are made.

Revenue Recognition

Direct hire placement service revenues are recognized when applicants accept offers of employment, less a provision for estimated losses due to applicants not remaining employed for the Company’s guarantee period. Contract staffing service revenues are recognized when services are rendered.

The provision for falloffs and refunds, which is reflected in the consolidated statements of operations as a reduction of placement service revenues, was \$939,000 in fiscal 2014 and \$969,000 in fiscal 2013.

Cost of Contract Staffing Services

The cost of contract services includes the wages and the related payroll taxes and employee benefits of the Company’s employees while they work on contract assignments.

Table of Contents

Cash and Cash Equivalents

Highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents. At September 30, 2014, and September 30, 2013, there were no cash equivalents. The Company maintains deposits in financial institutions in excess of amounts guaranteed by the Federal Deposit Insurance Corporation. Cash and cash equivalents are maintained at financial institutions and, at times, balances may exceed federally insured limits. We have never experienced any losses related to these balances. Beginning 2013, insurance coverage reverted to \$250,000 per depositor at each financial institution, and our non-interest bearing cash balances may again exceed federally insured limits.

Accounts Receivable

The Company extends credit to its various customers based on evaluation of the customer's financial condition and ability to pay the Company in accordance with the payment terms. An allowance for placement fall-offs is recorded, as a reduction of revenues, for estimated losses due to applicants not remaining employed for the Company's guarantee period. An allowance for doubtful accounts is recorded, as a charge to bad debt expense, where collection is considered to be doubtful due to credit issues. These allowances together reflect management's estimate of the potential losses inherent in the accounts receivable balances, based on historical loss statistics and known factors impacting its customers. The nature of the contract service business, where companies are dependent on employees for the production cycle allows for a small accounts receivable allowance. Based on management's review of accounts receivable, an allowance for doubtful accounts of approximately \$395,000 and \$272,000 is considered necessary as of September 30, 2014, and September 30, 2013, respectively. The Company charges uncollectible accounts against the allowance once the invoices are deemed unlikely to be collectible. Based on management's review of accounts receivables related to discontinued operations, an allowance of approximately \$265,000 and \$35,000 are considered necessary as of September 30, 2014 and September 30, 2013, respectively.

Property and Equipment

Property and equipment are recorded at cost. Depreciation expense is calculated on a straight-line basis over estimated useful lives of five years for computer equipment and two to ten years for office equipment, furniture and fixtures. The Company capitalizes computer software purchased or developed for internal use and amortizes it over an estimated useful life of five years. The carrying value of property and equipment is reviewed for impairment whenever events or changes in circumstances indicate that it may not be recoverable. If the carrying amount of an asset group is greater than its estimated future undiscounted cash flows, the carrying value is written down to the estimated fair value. There was no impairment of property and equipment for the years ended September 30, 2014 and 2013. For property and equipment included in current asset of discontinued operations in the accompanying balance sheet the Company has ceased recording depreciation expense.

Goodwill

Goodwill represents the excess of cost over the fair value of the net assets acquired in the acquisitions of DMCC Staffing, LLC, RFFG of Cleveland, LLC, and Ashley Ellis, LLC ("Ashley Ellis"). The Company assesses goodwill for impairment at least annually. Testing Goodwill for Impairment, which allows the Company to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the entity determines that this threshold is not met, then performing the two-step impairment test is unnecessary. An impairment loss would be recognized to the extent the carrying value of goodwill exceeds its implied fair value.

Fair Value Measurement

The Company follows the provisions of the accounting standard which defines fair value, establishes a framework for measuring fair value and enhances fair value measurement disclosure. Under these provisions, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

The standard establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use on unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Table of Contents

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

The fair value of the Company's current assets and current liabilities, excluding the derivative liability, approximate their carrying values due to their short term nature. The carrying value of the Company's long-term liabilities and the derivative liability represents their fair value based on level 3 inputs, as discussed in Notes 6 and 8. The Company's goodwill and other intangible assets are measured at fair value on a non-recurring basis using level 3 inputs, as discussed in Note 4.

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposure to cash flow, market or foreign currency risk. Terms of convertible promissory note instruments are reviewed to determine whether or not they contain embedded derivative instruments that are required under ASC 815 "Derivative and Hedging" (ASC 815) to be accounted for separately from the host contract, and recorded on the balance sheet at fair value. The fair value of derivative liabilities, if any, is required to be revalued at each reporting date, with corresponding changes in fair value recorded in current period operating results.

Freestanding warrants issued by the Company in connection with the issuance or sale of debt and equity instruments are considered to be derivative instruments and are evaluated and accounted for in accordance with the provisions of ASC 815. Pursuant to ASC 815, an evaluation of specifically identified conditions is made to determine whether fair value of warrants issued is required to be classified as equity or as a derivative liability.

Earnings (loss) per Share

Basic income (loss) per share is computed by dividing net income (loss) attributable to common stockholders by the weighted average common shares outstanding for the period. Diluted income (loss) per share is computed giving effect to all potentially dilutive common shares. Potentially dilutive common shares may consist of incremental shares issuable upon the exercise of stock options and warrants and the conversion of notes payable to common stock. In periods in which a net loss has been incurred, all potentially dilutive common shares are considered anti-dilutive and thus are excluded from the calculation. Common share equivalents of approximately 468,000 and 47,000 were excluded from the computation of diluted earnings per share for the years ended September 30, 2014 and 2013, respectively, because their effect is anti-dilutive.

Reclassification

Certain reclassifications have been made to the financial statements as of and for the year ended September 30, 2013 to conform to the presentation as of and for the year ended September 30, 2014.

Advertising Expenses

The majority of the Company's advertising expense budget is used to support the Company's business. Most of the advertisements are in print or internet media, with expenses recorded as they are incurred. For the years ended September 30, 2014 and 2013, included in selling, general and administrative expenses was advertising expense totaling approximately \$718,000 and \$733,000, respectively.

Intangible Assets

Customer lists, non-compete agreements, customer relationships, management agreements and trade names were recorded at their estimated fair value at the date of acquisition and are amortized over their estimated useful lives ranging from two to ten years using both accelerated and straight-line methods.

Impairment of Long-lived Assets

The Company records an impairment of long-lived assets used in operations, other than goodwill, when events or circumstances indicate that the asset might be impaired and the estimated undiscounted cash flows to be generated by those assets over their remaining lives are less than the carrying amount of those items. The net carrying value of assets not recoverable is reduced to fair value, which is typically calculated using the discounted cash flow method.

Table of Contents

Stock-Based Compensation

The Company accounts for stock-based awards to employees in accordance with applicable accounting principles, which requires compensation expense related to share-based transactions, including employee stock options, to be measured and recognized in the financial statements based on a determination of the fair value of the stock options. The grant date fair value is determined using the Black-Scholes-Merton (“Black-Scholes”) pricing model. For all employee stock options, we recognize expense over the requisite service period on an accelerated basis over the employee’s requisite service period (generally the vesting period of the equity grant). The Company’s option pricing model requires the input of highly subjective assumptions, including the expected stock price volatility, expected term, and forfeiture rate. Any changes in these highly subjective assumptions significantly impact stock-based compensation expense.

Options awarded to purchase shares of common stock issued to non-employees in exchange for services are accounted for as variable awards in accordance with applicable accounting principles. Such options are valued using the Black-Scholes option pricing model.

See Note 9 for the assumptions used to calculate the fair value of stock-based employee and non-employee compensation. Upon the exercise of options, it is the Company’s policy to issue new shares rather than utilizing treasury shares.

Income Taxes

We record a provision for income taxes for the anticipated tax consequences of the reported results of operations using the asset and liability method. Under this method, we recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial reporting and tax basis of assets and liabilities, as well as for operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using the tax rates that are expected to apply to taxable income for the years in which those tax assets and liabilities are expected to be realized or settled. We record a valuation allowance to reduce our deferred tax assets to the net amount that we believe is more likely than not to be realized.

Due to the private sale of shares of common stock to LEED HR during fiscal 2012 and the resulting change in control, the Company may be limited by Section 382 of the Internal Revenue Code as to the amount of net operating losses that may be used in future years.

We recognize tax benefits from uncertain tax positions only if we believe that it is more likely than not that the tax position will be sustained on examination by the taxing authorities based on the technical merits of the position. Although we believe that we have adequately reserved for our uncertain tax positions, we can provide no assurance that the final tax outcome of these matters will not be materially different. We make adjustments to these reserves when facts and circumstances change, such as the closing of a tax audit or the refinement of an estimate. To the extent that the final tax outcome of these matters is different than the amounts recorded, such differences will affect the provision for income taxes in the period in which such determination is made and could have a material impact on our financial condition and operating results.

Discontinued Operations

A discontinued operation is a component of an entity that has either been disposed of or that is classified as held for sale, which represents a separate major line of business or geographical area of operations and is part of a single coordinated plan to dispose of a separate line of business or geographical area of operations. In accordance with the rules regarding the presentation of discontinued operations, the assets, liabilities and activity of our agricultural business have been reclassified as a discontinued operation for all periods presented.

Segment Data

The Company has two operating business segments a) Contract staffing services, and b) Direct hire placement. These operating segments were determined based primarily on how the chief operating decision maker views and evaluates our operations. Operating results are regularly reviewed by the chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Other factors, including type of business, type of employee, length of employment and revenue recognition are considered in determining these operating segments.

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, “Revenue from Contracts with Customers,” which supersedes or replaces nearly all GAAP revenue recognition guidance. The new guidance establishes a new control-based revenue recognition model, changes the basis for deciding when revenue is recognized over time or at a point in time and will expand disclosures about revenue. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2016 and interim periods within those years. Early adoption is not permitted. The Company is currently assessing the impact of ASU 2014-09.

Table of Contents

In August 2014, the FASB issued Accounting Standards Update 2014-15 (“ASU 2014-15), “*Presentation of Financial Statements – Going Concern (Subtopic 205 – 40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern.*” ASU 2014-15 requires management to evaluate whether there are conditions or events that raise substantial doubt about the entity’s ability to continue as a going concern, and to provide certain disclosures when it is probable that the entity will be unable to meet its obligations as they become due within one year after the date that the financial statements are issued. ASU 2014-15 is effective for the annual period ended December 31, 2016 and for annual periods and interim periods thereafter with early adoption permitted. The Company does not expect this ASU to have a significant impact on its financial position or results of operations.

In November 2014, FASB issued ASU No. 2014-17, *Business Combinations (Topic 805): Pushdown Accounting (a consensus of the FASB Emerging Issues Task Force.* The amendments in this Update provide an acquired entity with an option to apply pushdown accounting in its separate financial statements upon occurrence of an event in which an acquirer obtains control of the acquired entity. An acquired entity may elect the option to apply pushdown accounting in the reporting period in which the change-in-control event occurs. An acquired entity should determine whether to elect to apply pushdown accounting for each individual change-in-control event in which an acquirer obtains control of the acquired entity. If pushdown accounting is not applied in the reporting period in which the change-in-control event occurs, an acquired entity will have the option to elect to apply pushdown accounting in a subsequent reporting period to the acquired entity’s most recent change-in-control event. An election to apply pushdown accounting in a reporting period after the reporting period in which the change-in-control event occurred should be considered a change in accounting principle in accordance with Topic 250, Accounting Changes and Error Corrections. If pushdown accounting is applied to an individual change-in-control event, that election is irrevocable. The amendments in this Accounting Standards Update are effective on November 18, 2014. After the effective date, an acquired entity can make an election to apply the guidance to future change-in-control events or to its most recent change-in-control event. However, if the financial statements for the period in which the most recent change-in-control event occurred already have been issued or made available to be issued, the application of this guidance would be a change in accounting principle. The adoption of ASU 2014-17 did not have a material impact on the Company’s consolidated financial statements.

Other recent accounting pronouncements issued by FASB and the SEC did not or are not believed by management to have a material impact on the Company’s present or future financial statements.

4. Goodwill and Intangible Assets

Goodwill

Goodwill represents the excess of cost over the fair value of the net assets acquired from various acquisitions. Goodwill is not amortized. The Company performs a goodwill impairment test annually, by reporting unit, in the fourth quarter of the fiscal year, or whenever potential impairment triggers occur. Should the two-step process be necessary, the first step of the impairment test identifies potential impairment by comparing the fair value of a reporting unit to its carrying value including goodwill. In applying a fair-value-based test, estimates are made of the expected future cash flows to be derived from the reporting unit. Similar to the review for impairment of other long-lived assets, the resulting fair value determination is significantly impacted by estimates of future margins, capital needs, economic trends and other factors. If the carrying value of the reporting unit exceeds its fair value, the second step of the impairment test is performed to measure the amount of impairment loss, if any. The second step of the impairment test compares the implied fair value of the reporting unit goodwill with the carrying amount of that goodwill. An impairment loss would be recognized to the extent the carrying value of goodwill exceeds its implied fair value. No impairment loss was recorded in fiscal year 2014 or 2013.

Intangible Assets

Amortization expense was approximately \$326,000 and \$320,000 for the years ended September 30, 2014 and 2013, respectively.

The trade names are amortized on a straight – line basis over the estimated useful life of five years. Customer relationships are amortized based on the future undiscounted cash flows over estimated remaining useful lives of three to ten years. Over the next five years, annual amortization expense for these finite life intangible assets will be approximately \$320,000 in 2015, \$320,000 in 2016, \$320,000 in 2017, \$320,000 in 2018 and \$280,000 in 2019.

Long-lived assets, such as purchased intangibles subject to amortization, are reviewed for impairment when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company regularly evaluates whether events and circumstances have occurred that indicate possible impairment and relies on a number of factors, including operating results, business plans, economic projections, and anticipated future cash flows. The Company uses an estimate of the future undiscounted net cash flows of the related asset or asset group over the remaining life in measuring whether the assets are recoverable.

During the year ended September 30, 2014, the Company did not record any impairment of intangible assets.

5. Short-term Debt

On September 27, 2013, the Company (“Borrower”) entered into agreements with ACF FINCO I LP (successor-in-interest to Keltic Financial Partners II, LP), a limited partnership formed under the laws of the State of Delaware (“ACF”) (“Lender”) that provide the Company with long term financing through a six million dollar (\$6,000,000) secured revolving note (the “Note”). The Note has a term of three years and has no amortization prior to maturity. The interest rate for the Note is a fluctuating rate that, when annualized, is equal to the greatest of (A) the Prime Rate plus three and one quarter percent (3.25%), (B) the LIBOR Rate plus six and one quarter percent (6.25%), and (C) six and one half percent (6.50%), with the interest paid on a monthly basis. At September 30, 2014 and September 30, 2013 the interest rate was 6.5%. Loan advances pursuant to the Note are based on the accounts receivable balance and other assets. Upon execution of the Note, approximately three million fifty thousand dollars (\$3,050,000) was advanced for the full repayment of the AR Credit Facility and fees from Wells Fargo related to the early termination thereof. At the time of close, there was approximately nine hundred thousand (\$900,000) of availability under the new Note in excess of amounts paid to extinguish the debt and fees with Wells Fargo. The Company incurred certain cash expense and commitment fees related to obtaining the agreement of approximately \$170,000, which has been paid. The Note is secured by all of the Company’s property and assets, whether real or personal, tangible or intangible, and whether now owned or hereafter acquired, or in which it now has or at any time in the future may acquire any right, title or interests. On April 21, 2014, the Company entered into the First Amendment and Waiver to the Loan and Security Agreement with ACF to adjust the covenants. On December 3, 2014, the Company entered into a Second Amendment and Waiver to the Loan and Security Agreement with ACF to adjust the future covenants as outlined below and waived certain defaults. The ACF facility includes certain covenants which require compliance until termination of the agreement. As of the date of this report, the Company was in compliance with all such covenants or had received waivers related thereto.

The Company has several administrative covenants and the following financial covenant:

The Company must maintain the following EBITDA:

- (a) The three (3) consecutive calendar month period ending on December 31, 2014, to be a negative number exceeding negative Two Hundred Fifty Thousand and 00/100 Dollars (\$250,000);
- (b) The six (6) consecutive calendar month period ending on March 31, 2015, to be a negative number exceeding negative Five Hundred Thousand and 00/100 Dollars (\$500,000);
- (c) The nine (9) consecutive calendar month period ending on June 30, 2015, to be a negative number exceeding negative Seven Hundred Fifty Thousand and 00/100 Dollars (\$750,000);
- (d) The twelve (12) consecutive calendar month period ending on September 30, 2015, to be a negative number exceeding negative One Million and 00/100 Dollars (\$1,000,000); and
- (e) For any period commencing on or after October 1, 2015, no less than such amounts as are established by Lender for such period in Lender’s permitted discretion based on the annual financial projections including such period delivered by Borrower.

The agreement includes certain covenants which require compliance until termination of the agreement. As of the September 30, 2014, the Company was not in compliance with the EBITDA covenant or other administrative covenants, however as of the date of this report, the Company was in compliance with the above EBITDA covenant and had received a waiver from the Lender for other administrative covenants. On August 7, 2014, the Company issued a Convertible Note (the “Note”) with an original principal balance of \$632,500 to Brio Capital Master Fund LTD (“Brio”), for a purchase price of \$550,000. The Note matures on February 6, 2016, and is payable in thirteen monthly installments of \$48,654, commencing in the sixth month post-closing. Brio has the right, however not the obligation, six months after closing, to convert all or any part of the outstanding Note into the Company’s common stock at an initial

conversion price of \$0.20 per share. After six months from closing, the conversion price will have a one-time reset to the lower of \$0.20 or 90% of the average of the 3 lowest closing prices for the previous 10 trading days, subject to a floor of \$0.14 per share. The Company can force conversion if the Company's common stock trades at 250% greater than the conversion price for 20 consecutive trading days.

In addition to the Note, the Company issued a warrant to purchase up to 2,371,875 shares of the Company's common stock. The warrant is exercisable at \$0.25 per share, vests 6 months after the closing, and expires 5 years thereafter.

The Convertible Note contains an embedded conversion feature requiring bifurcation and liability treatment. The Company accounted for this conversion feature and the detachable warrants by allocating the proceeds from issuance of the convertible notes to the conversion feature and the warrants. These were based on a relative fair value and the conversion feature was valued by a third party.

To recognize the fair value of the warrants, the Company discounted the note and increased additional paid in capital. The fair value of the conversion feature was approximately \$178,000, the Company discounted the note and created a derivative liability, which will be evaluated each quarter and adjusted for any change in value. For the year ended September 30, 2014, the Company recognized interest expense and the amortization of the discount of approximately \$36,000.

The warrants are exercisable 6 months after issuance, have a term of 4 years, and have an exercise price of \$0.25 per warrant share. The SPA contains standard representations, warranties, and covenants. In addition, the SPA contains a price adjustment mechanism that requires the Company, with certain exceptions, to issue additional shares of common stock to the investor in the event the Company, within 12 months of the initial closing under the SPA, issues certain equity securities at a price per share less than \$0.20, provided, however, as long as the Company is listed on the NYSE MKT the total number of shares issuable under the foregoing adjustment provision may not exceed 19.9% of the Company's outstanding shares of common stock on March 30, 2014. As of September 30, 2014, there were approximately \$12,150,000 of losses available to reduce federal taxable income in future years through 2033, and there were approximately \$10,800,000 of losses available to reduce state taxable income in future years, expiring from 2014 through 2033. Due to common stock transactions in the prior years, it is likely that the Company will be limited by Section 382 of the Internal Revenue Code as to the amount of net operating losses that may be used in future years. The Company is currently evaluating the effects of any such limitation.

Future realization of the tax benefits of existing temporary differences and net operating loss carryforwards ultimately depends on the existence of sufficient taxable income within the carryforward period. As of September 30, 2014 and 2013, the Company performed an evaluation to determine whether a valuation allowance was needed. The Company considered all available evidence, both positive and negative, which included the results of operations for the current and preceding years. The Company also considered whether there was any currently available information about future years. Because long-term contracts are not a significant part of the Company's business, future results cannot be reliably predicted by considering past trends or by extrapolating past results. Moreover, the Company's earnings are strongly influenced by national economic conditions and have been volatile in the past. Considering these factors, the Company determined that it was not possible to reasonably quantify future taxable income. The Company determined that it is more likely than not that all of the deferred tax assets will not be realized. Accordingly, the Company maintained a full valuation allowance as of September 30, 2014 and 2013.

As a result of continuing losses, we have determined that it is more likely than not that we will not realize the benefits of the deferred tax assets and therefore we have recorded a valuation allowance to reduce the carrying value of the deferred tax assets to zero. The valuation allowance increased by \$1,065,000 and \$537,000 in 2014 and 2013, respectively.

We file federal and state income tax returns in jurisdictions with varying statutes of limitations. Due to our net operating loss carryforwards, our income tax returns generally remain subject to examination by federal and most state tax authorities. We are not currently under examination in any federal or state jurisdiction.

1. Summary of Significant Accounting Policies

Organization

Scribe Solutions, Inc. (the "Company") is a closely held Florida corporation formed to provide transcribed medical record charts to emergency departments of hospitals, primarily in Florida.

Basis of Accounting

The financial statements of the Company are prepared on the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred.

Cash and Cash Equivalents

For reporting in the Statement of Cash Flows, cash equivalents include time deposits, certificates of deposit, and all highly-liquid debt instruments with original maturities of three months or less. The Company places its cash and temporary investments with high quality financial institutions. At times, such cash and investments may be in excess of FDIC insurance limits. The Company does not believe it is exposed to any significant risk on cash and cash equivalents.

Accounts Receivable

Accounts receivable are presented at net realizable value. The Company considers all receivables to be fully collectible; accordingly, no allowance for doubtful accounts is required.

Property and Equipment

Property and equipment are recorded at cost and depreciated over their estimated useful lives. Depreciation is computed by the straight-line method for financial reporting purposes. For income tax purposes, depreciation is recorded by accelerated methods, and additional allowances provided for in the Internal Revenue Code are deducted.

Maintenance and repairs are charged to expense as incurred. Betterments and renewals are capitalized. When property and equipment is sold or otherwise disposed of, the asset account and the related accumulated depreciation account are relieved and any gain or loss is included in operations.

Income Tax

The Company, with the consent of its original stockholder, elected to be an S corporation for both federal and state tax purposes. Accordingly, no provision for federal income taxes has been presented in the financial statements as such taxes are to be paid by the stockholders individually.

The Company's income tax returns are subject to examination by the appropriate tax jurisdictions. As of December 31, 2014, the Company's federal tax return remains open for the last three years.

Long-Lived Assets

Management of the Company reviews long-lived assets (including property and equipment) for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Management considers the undiscounted cash flow expected to be generated by the use of the asset and its eventual disposition to determine when and if an impairment has occurred. Any write downs due to impairment are charged to operations at the time impairment is identified. At December 31, 2014 and 2013, no long-lived assets are considered impaired.

Table of Contents

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Advertising Costs

The Company has the policy of expensing advertising costs as incurred. Advertising costs charged to expense for the years ending December 31, 2014 and 2013 were \$10,170 and \$3,641, respectively.

2. Leases

The Company leases office space in Jacksonville, Florida under an operating lease. The lease requires monthly rent payments of \$1,327. The lease expired during 2013 and the terms of the lease are on a monthly basis.

Rent expense for the years ending December 31, 2014 and 2013 was \$17,041 and \$14,595, respectively.

3. Concentrations of Credit Risk

The Company maintains its cash balances in financial institutions located in Jacksonville, Florida. At times during the year, the Company maintained balances that exceeded the federally insured limit of \$250,000. The Company believes that there is no significant risk with respect to these deposits.

Revenue for the year ended December 31, 2014 includes sales to three customers, which accounted for approximately 58%, 15%, and 11% of the total revenue of the Company.

Revenue for the year ended December 31, 2013 includes sales to three customers, which accounted for approximately 33%, 30%, and 18% of the total revenue of the Company.

Accounts receivable from two customers accounted for approximately 67% and 10% of total accounts receivable at December 31, 2014.

Accounts receivable from one customer accounted for approximately 71% of total accounts receivable at December 31, 2013.

4. Note Payable

The Company has a note payable with a local bank that was used to refinance a line of credit that was outstanding during the year. The note calls for interest at the prime rate as listed in the Wall Street Journal plus .75%, currently at 4.0% at December 31, 2014. The note is due upon demand or if no demand is made the note matures on March 14, 2015. The outstanding balance as of December 31, 2014 and 2013 was \$350,000 and \$0, respectively.

(ii) Indemnification by the Scribe Shareholders and Underwriters. Each Scribe Shareholder agrees, as a consequence of the inclusion of any of its Registrable Securities in a Registration Statement, and each underwriter, if any, which facilitates the disposition of Registrable Securities shall agree, severally and not jointly, as a consequence of facilitating such disposition of Registrable Securities to (A) indemnify and hold harmless the Company, its directors (including any person who, with his or her consent, is named in the Registration Statement as a director nominee of the Company), its officers who sign any Registration Statement and each Person, if any, who controls the Company within the meaning of either Section 15 of the Securities Act or Section 20 of the 1934 Act, against any losses, claims, damages or liabilities to which the Company or such other persons may become subject, under the Securities Act or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon an untrue statement or alleged untrue statement of a material fact contained in such Registration Statement or Prospectus or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein (in light of the circumstances under which they were made, in the case of the Prospectus), not misleading, in each case to the extent, but only to the extent, that such untrue statement or alleged untrue statement or omission or alleged omission was made in reliance upon and in conformity with written information furnished to the Company by the Scribe Shareholder or underwriter expressly for use therein, and (B) reimburse the Company for any legal or other expenses incurred by the Company in connection with investigating or defending any such action or claim as such expenses are incurred; provided, however, that such Scribe Shareholder shall not be liable under this Section 6.2(e)(ii) for any amount in excess of the net proceeds paid to such Scribe Shareholder in respect of Registrable Securities sold by it.

In connection with any Claim as to which both the Indemnifying Party and the Indemnified Party are parties, the Indemnifying Party shall be entitled to assume the defense thereof. Notwithstanding the assumption of the defense of any Claim by the Indemnifying Party, the Indemnified Party shall have the right to employ separate legal counsel and to participate in the defense of such Claim, and the Indemnifying Party shall bear the reasonable fees, out of pocket costs and expenses of such separate legal counsel to the Indemnified Party if (and only if): (A) the Indemnifying Party shall have agreed to pay such fees, costs and expenses, (B) the Indemnified Party shall reasonably have concluded that representation of the Indemnified Party by the Indemnifying Party by the same legal counsel would not be appropriate due to actual or, as reasonably determined by legal counsel to the Indemnified Party, potentially differing interests between such parties in the conduct of the defense of such Claim, or if there may be legal defenses available to the Indemnified Party that are in addition to or disparate from those available to the Indemnifying Party, or (C) the Indemnifying Party shall have failed to employ legal counsel reasonably satisfactory to the Indemnified Party within a reasonable period of time after notice of the commencement of

such Claim. If the Indemnified Party employs separate legal counsel in circumstances other than as described in the preceding sentence, the fees, costs and expenses of such legal counsel shall be borne exclusively by the Indemnified Party. Except as provided above, the Indemnifying Party shall not, in connection with any Claim in the same jurisdiction, be liable for the fees and expenses of more than one firm of counsel for the Indemnified Party (together with appropriate local counsel). The Indemnified Party shall not, without the prior written consent of the Indemnifying Party (which consent shall not unreasonably be withheld), settle or compromise any Claim or consent to the entry of any judgment that does not include an unconditional release of the Indemnifying Party from all liabilities with respect to such Claim or judgment or contain any admission of wrongdoing.

(iv) Contribution. If the indemnification provided for in this Section 6.2(e) is unavailable to or insufficient to hold harmless an Indemnified Party in respect of any losses, claims, damages or liabilities (or actions in respect thereof) referred to therein, then each Indemnifying Party shall contribute to the amount paid or payable by such Indemnified Party as a result of such losses, claims, damages or liabilities (or actions in respect thereof) in such proportion as is appropriate to reflect the relative fault of the Indemnifying Party and the Indemnified Party in connection with the statements or omissions or alleged statements or omissions which resulted in such losses, claims, damages or liabilities (or actions in respect thereof), as well as any other relevant equitable considerations. The relative fault of such Indemnifying Party and Indemnified Party shall be determined by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or omission or alleged omission to state a material fact relates to information supplied by such Indemnifying Party or by such Indemnified Party, and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission. The parties hereto agree that it would not be just and equitable if contribution pursuant to this Section 6.2(e)(iv) were determined by pro rata allocation (even if the Scribe Shareholders or any underwriters were treated as one entity for such purpose) or by any other method of allocation which does not take account of the equitable considerations referred to in this Section 6.2(e)(iv). The amount paid or payable by an Indemnified Party as a result of the losses, claims, damages or liabilities (or actions in respect thereof) referred to above shall be deemed to include any legal or other fees or expenses reasonably incurred by such Indemnified Party in connection with investigating or defending any such action or claim. No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation.

(v) Limitation on Scribe Shareholders' and Underwriters' Obligations. Notwithstanding any other provision of this Section 6.2(e), in no event shall (A) any Scribe Shareholder have any liability under this Section 6.2(e) for any amounts in excess of the dollar amount of the proceeds actually received by such Scribe Shareholder from the sale of Registrable Securities (after deducting any fees, discounts and commissions applicable thereto) pursuant to any Registration Statement under which such Registrable Securities are registered under the Securities Act and (B) any underwriter be required to undertake liability to any Person hereunder for any amounts in excess of the aggregate discount, commission or other compensation payable to such underwriter with respect to the Registrable Securities underwritten by it and distributed pursuant to the Registration Statement.

Table of Contents

(vi) Other Liabilities. The obligations of the Company under this Section 6.2(e) shall be in addition to any liability which the Company may otherwise have to any Indemnified Person and the obligations of any Indemnified Person under this Section 6.2(e) shall be in addition to any liability which such Indemnified Person may otherwise have to the Company. The remedies provided in this Section 6.2(e) are not exclusive and shall not limit any rights or remedies which may otherwise be available to an Indemnified Party at law or in equity.

(f) Rule 144. With a view to making available to the Scribe Shareholders the benefits of Rule 144, the Company agrees to use its best efforts to:

(i) comply with the provisions of paragraph (c)(1) of Rule 144; and

(ii) file with the SEC in a timely manner all reports and other documents required to be filed by the Company pursuant to Section 13 or 15(d) under the 1934 Act; and, if at any time it is not required to file such reports but in the past had been required to or did file such reports, it will, upon the request of any Scribe Shareholders, make available other information as required by, and so long as necessary to permit sales of, its Registrable Securities pursuant to Rule 144.

(g) Termination of Registration Rights. The registration rights granted in this Section 6.2 shall terminate with respect to a Registrable Security upon the date such security is first eligible to be resold without volume limitations pursuant to Rule 144 of the Securities Act.

7. PRE-CLOSING COVENANTS. The Parties agree as follows with respect to the period between the execution of this Agreement and the Closing.

7.1 Scribe Shareholders Pre-Closing Covenants.

(a) General. Each of the Scribe Shareholders will use his, her, or its reasonable best efforts to take all actions and to do all things necessary in order to consummate and make effective the transactions contemplated by this Agreement (including satisfaction, but not waiver, of the Closing conditions set forth in Section 8 of this Agreement).

(b) Notices and Consents. Scribe Shareholders shall cause Scribe to give any notices to third parties, and shall cause Scribe to use its reasonable best efforts to obtain any third party consents, referred to in Section 4.16 of this Agreement above and the items set forth in Section 4.16 of the Scribe Disclosure Schedule.

(c) Operation of Business. Scribe Shareholders will not cause or permit Scribe to engage in any practice, take any action, or enter into any transaction outside the Ordinary Course of Business.

(d) Full Access. Each Scribe Shareholder will permit, and Scribe Shareholders will cause Scribe to permit, representatives of GEE (including legal counsel and accountants) to have full access at all reasonable times, and in a manner so as not to interfere with the normal business operations of Scribe, to all premises, properties, personnel, books, records (including tax records), contracts, and documents of or pertaining to Scribe. GEE will treat and hold as such any Confidential Information it receives from any of Scribe Shareholders and Scribe in the course of the reviews contemplated by this Section 7.1(d), will not use any of the Confidential Information except in connection with this Agreement, and, if this Agreement is terminated for any reason whatsoever, will return to Scribe all tangible embodiments (and all copies) of the Confidential Information that are in its possession.

(e) Exclusivity. No Scribe Shareholder will (and Scribe Shareholders will not cause or permit Scribe to) solicit, initiate, or encourage the submission of any proposal or offer from any Person relating to the acquisition of all or substantially all of the capital stock or assets of Scribe (including any acquisition structured as a merger, consolidation, or share exchange); provided, however, that Scribe Shareholders, Scribe and its directors and officers will remain free to participate in any discussions or negotiations, furnish any information with respect to, assist or participate in, or facilitate in any other manner any effort or attempt by any Person to do or seek any of the foregoing to the extent their fiduciary duties may require.

7.2 GEE Pre-Closing Covenants.

(a) General. GEE will use its reasonable best efforts to take all actions and to do all things necessary in order to consummate and make effective the transactions contemplated by this Agreement (including satisfaction, but not waiver, of the Closing conditions set forth in Section 7 of this Agreement). Without limiting the foregoing, GEE will file the requisite documents and use its reasonable best efforts to obtain the approvals from the NYSE MKT and SEC that are listed as closing conditions in Section 8 of this Agreement.

(b) Notices and Consents. GEE will give any notices to third parties, and will use its reasonable best efforts to obtain any third party consents, referred to in Section 3.5 of this Agreement above and the items set forth in Section 3.5 of the Company Disclosure Schedule.

(d) Access. GEE will provide Derek Dewan and Alex Stuckey (the Scribe “Shareholders’ Representatives”) with access as reasonably requested by the Scribe Shareholders’ Representatives to the books, records, contracts and documents of GEE. The Scribe Shareholders’ Representatives, each of whom is signing this Agreement, agree that they will treat and hold as such any Confidential Information it receives from GEE in the course of the reviews contemplated by this Section 7.2(d), and will not use any of the Confidential Information except in connection with this Agreement, and, if this Agreement is terminated for any reason whatsoever, will return to GEE all tangible embodiments (and all copies) of the Confidential Information that are in the Scribe Shareholders’ Representatives’ possession.

(e) Exclusivity. GEE will not solicit, initiate, or encourage the submission of any proposal or offer from any Person relating to the acquisition of all or substantially all of the capital stock or assets of GEE (including any acquisition structured as a merger, consolidation, or share exchange); provided, however, that GEE, its directors and officers will remain free to participate in any discussions or negotiations, furnish any information with respect to, assist or participate in, or facilitate in any other manner any effort or attempt by any Person to do or seek any of the foregoing to the extent their fiduciary duties may require.

7.3 Notice of Developments.

(i) Any Scribe Shareholder may elect at any time to notify GEE of any development causing a breach of any of the representations and warranties in Section 4 above. Unless GEE has the right to terminate this Agreement pursuant to Section 9.1 (ii) below by reason of the development and exercises that right within the period of 10 business days referred to in Section 9.1 (ii) below, the written notice pursuant to this Section 7.3 (i) will be deemed to have amended the Scribe Disclosure Schedule, to have qualified the representations and warranties contained in Section 4 above, and to have cured any misrepresentation or breach of warranty that otherwise might have existed hereunder by reason of the development.

(ii) Each Party will give prompt written notice to the others of any material adverse development causing a breach of any of his, her, or its own representations and warranties in Section 3 or 4 above. No disclosure by any Party pursuant to this Section 7.3 (ii), however, shall be deemed to amend or supplement any Disclosure Schedule or to prevent or cure any misrepresentation or breach of warranty.

Table of Contents

(iii) GEE may terminate this Agreement by giving written notice to Scribe Shareholders at any time prior to the Closing (A) in the event any Scribe Shareholder has breached any material representation, warranty, or covenant contained in this Agreement in any material respect, GEE has notified Scribe Shareholders of the breach, and the breach has continued without cure for a period of 30 days after the notice of breach or (B) if the Closing shall not have occurred on or before April 1, 2015, by reason of the failure of any condition precedent under Section 8.1 hereof (unless the failure results primarily from GEE itself breaching any representation, warranty, or covenant contained in this Agreement); and

If any Party terminates this Agreement pursuant to Section 9.1 above, all rights and obligations of the Parties hereunder shall terminate without any liability of any Party to any other Party (except for any liability of any Party then in breach); provided, however, that the confidentiality provisions contained in this Agreement shall survive termination.

10. REMEDIES FOR BREACHES OF THIS AGREEMENT.

10.1 Survival of Representations and Warranties and Covenants.

(a) All of the representations and warranties of Scribe Shareholders contained in Section 4 above shall survive the Closing hereunder (unless GEE knew or had reason to know of any misrepresentation or breach of warranty at the time of Closing) and continue in full force and effect for a survival period of six (6) months thereafter and then expire.

(b) All of the representations and warranties of GEE contained in Section 3 above shall survive the Closing and continue in full force and effect for a survival period of six (6) months thereafter and then expire.

(c) All of the covenants of the Parties shall survive the Closing and continue in full force and effect for a survival period equal to the applicable statute of limitations.

Table of Contents

each Scribe Shareholder shall indemnify GEE from and against its Allocable Portion of any Adverse Consequences GEE shall suffer until the Adverse Consequences caused proximately by the breach (i) after GEE has suffered Adverse Consequences by reason of all such breaches in excess of a \$200,000 aggregate deductible (the “Aggregate Deductible”, only after which point Scribe Shareholders will be obligated to indemnify GEE from and against further such Adverse Consequences) or thereafter (ii) until and only to the extent the Adverse Consequences GEE has suffered by reason of all such breaches reach a \$1,000,000 aggregate ceiling (after which point Scribe Shareholders will have no obligation to indemnify GEE from and against further such Adverse Consequences).

10.3 Indemnification Provisions for Scribe Shareholders’ Benefit. In the event GEE breaches any of its representations, warranties, and covenants contained herein, and provided that any Scribe Shareholder makes a written claim for indemnification against GEE pursuant to the notice provisions of this Agreement within the survival period (if there is an applicable survival period pursuant to Section 10.1 above), then GEE shall indemnify each Scribe Shareholder from and against the entirety of any Adverse Consequences suffered caused proximately by the breach.

(b) Any Responsible Party will have the right at any time to assume and thereafter conduct the defense of the Third-Party Claim with counsel of his, her, or its choice reasonably satisfactory to the Protected Party; provided, however, that the Responsible Party will not consent to the entry of any judgment or enter into any settlement with respect to the Third-Party Claim without the prior written consent of the Protected Party (not to be unreasonably withheld) unless the judgment or proposed settlement involves only the payment of money damages and does not impose an injunction or other equitable relief upon the Protected Party.

(c) Unless and until a Responsible Party assumes the defense of the Third-Party Claim as provided in Section 10.4(b) above, however, the Protected Party may defend against the Third-Party Claim in any manner he, she, or it may reasonably deem appropriate.
